

LIPA'S COMMON RESIDENTIAL ELECTRIC RATES

The rate you are currently billed under is listed on your bill. Please review the entire guide to determine which rate is best suited for you. You may have made significant changes in the way you use electricity at your home and may find another rate more appropriate.

Please note that the charges shown in this guide do not include various adjustments that LIPA includes in its bill. It is important to note that your bill also includes a Power Supply Charge at a cost per kWh basis. For a further explanation, see "Additional Information" and "Other Charges."

If you would like further information, please call **1-800-490-0025** or visit our Web site at www.lipower.org.

Religious customers, veterans organizations and qualified community residences may choose service under an appropriate residential or non-residential service classification, subject to a minimum term of one year. Please call our toll-free number, 1-800-490-0025, for additional information.

2009

Residential Electric Rates

(Electric Rates Effective: May 29, 1998 and reformatted July 5, 2006.)

Rate 180 : General Service

Rate 183: Water Heating

(Service established after January 26, 1983 and Rate used for tracking purposes only.)

Both rate codes have identical charges. However, Rate 180 applies to customers who use electricity for general use (i.e., lights and appliances), excluding water and space heating.

Rate 183 applies to residential and religious customers who, in addition to general use, have electric water heating and established service after January 26, 1983.

DELIVERY & SYSTEM CHARGES

Rate: (Per Meter)	June 1 through Sept. 30	Oct. 1 through May 31
Service Charge: (per day)	\$0.1790	\$0.1790
Energy Charge: (per kWh)		
First 250 kWh	\$0.0857	\$0.0857
Excess 250 kWh	\$0.0975	\$0.0787

Minimum Charge: Is the Service Charge per meter, per month plus adjustments to rates and charges.

Rate 380: Water Heating

(Service established prior to January 26, 1983)

Available to customers using water heated solely by electricity, in addition to electricity used for basic household use. This rate only applies to customers who established service before January 26, 1983. Seasonal customers will remain eligible for this rate, providing yearly reconnections are established in the same name.

DELIVERY & SYSTEM CHARGES

Rate: (Per Meter)	June 1 through Sept. 30	Oct. 1 through May 31
Service Charge: (per day)	\$0.1790	\$0.1790
Energy Charge: (per kWh)		
First 250 kWh	\$0.0857	\$0.0857
Next 150 kWh	\$0.0975	\$0.0787
Next 400 kWh	\$0.0586	\$0.0586
Excess 800 kWh	\$0.0975	\$0.0787

Minimum Charge: Is the Service Charge per meter, per month plus adjustments to rates and charges.

Rate 480/481: Off-Peak Rate

Available to Rate 180 customers who use electricity during the off-peak hours of midnight to 7:00 a.m. (Rate 480) or 10:00 p.m. to 10:00 a.m. (Rate 481) to store energy. Customers are required to have separately metered, segregated circuits for this rate and cannot use electricity for any other purpose except for energy storage and also at no other time except as specified above.

DELIVERY & SYSTEM CHARGES

Rate: (per meter)	Midnight to 7 AM	10 PM to 10 AM
Service Charge: (per day)	\$0.1410	\$0.1410
Energy Charge: (per kWh)	\$0.0264	\$0.0300

Minimum Charge: Is the Service Charge per meter, per month plus adjustments to rates and charges.

Rate 580: Space Heating with Resistant Heat

Rate 581: Space Heating with a Heat Pump

Rate 882: Water and Space Heating with Resistant Heat

Rate 883: Water and Space Heating with a Heat Pump

Rate 580 applies to customers who heat their entire building solely with resistant heat electricity, with the exception of fireplaces, coal and wood burning stoves. Water heating is produced by another fuel source.

Rate 581 applies to customers who heat their entire building with an electric heat pump with the exception of fireplaces, coal and wood burning stoves.

Rate 882 applies to customers who, after January 26, 1983, use electricity for both water and space heating. The water and space heating of the entire building must be provided solely by resistant heat electricity, with the exception of fireplaces, coal and wood burning stoves.

Rate 883 applies to customers who, after January 26, 1983, use electricity for both water and space heating with an electric heat pump, with the exception of fireplaces, coal and wood burning stoves.

DELIVERY & SYSTEM CHARGES	June 1 through Sept. 30	Oct. 1 through May 31
Rate: (Per Meter)		
Service Charge: (per day)	\$0.1790	\$0.1790
Energy Charge: (per kWh)		
First 250 kWh	\$0.0857	\$0.0857
Next 150 kWh	\$0.0975	\$0.0787
Excess 400 kWh	\$0.0975	\$0.0515

Minimum Charge: Is the Service Charge per meter, per month plus adjustments to rates and charges.

Rate 880: Water and Space Heating with Resistant Heat

Rate 881: Water and Space Heating with a Heat Pump

Available to customers using electricity for both water and space heating. The difference between Rate Codes 880 and 881, and Rates 882 and 883 is that customers qualifying for the former rates are required to have had electric water heating installed before January 26, 1983. Seasonal customers will remain eligible for these rates, provided yearly reconnections are established in the same name.

DELIVERY & SYSTEM CHARGES	June 1 through Sept. 30	Oct. 1 through May 31
Rate: (Per Meter)		
Service Charge: (per day)	\$0.1790	\$0.1790
Energy Charge: (per kWh)		
First 250 kWh	\$0.0857	\$0.0857
Next 150 kWh	\$0.0975	\$0.0787
Next 400 kWh	\$0.0586	\$0.0515
Excess 800 kWh	\$0.0975	\$0.0515

Minimum Charge: Is the Service Charge per meter, per month plus adjustments to rates and charges.

Rate 184: Voluntary Large Residential Service with Multiple Rate Periods

(With or without space heating)

Available as an option to customers who use, or are expected to use, more than 39,000 kilowatt hours (kWh) annually or 12,600 kWh for the months of June through September. Customers on this rate are billed on a meter that records usage during peak and off-peak hours.

DELIVERY & SYSTEM CHARGES	June 1 through Sept. 30	Oct. 1 through May 31
Rate: (Per Meter)		
Service Charge: (per day)	\$0.9150	\$0.9150
Off-Peak	Period 1	Period 2
8 PM to 10 AM and Saturday and Sunday		
First 125 kWh	\$0.0376	\$0.0376
Excess 125 kWh	\$0.0376	\$0.0376
Peak	Period 3	Period 4
10 AM to 8 PM Weekdays		
First 125 kWh	\$0.0781	\$0.0781
Excess 125 kWh	\$0.2364	\$0.0781

Minimum Charge: Is the Service Charge per meter, per month plus adjustments to rates and charges.

Term: Terminable by the customer upon five days written notice or by LIPA in the manner provided by its tariff. Customers may switch to another service classification for which they qualify on their annual anniversary date, provided they request the transfer in writing at least 30 days in advance.

Rate 181: Voluntary Large Residential Service with Multiple Rate Periods

(Without space heating)

Available as an option to customers who use, or are expected to use, more than 39,000 kilowatt hours (kWh) annually or 12,600 kWh for the months of June through September. Customers on this rate are billed on a meter that records usage during peak and off-peak hours. *This rate is available only to qualifying customers who are considered non-space heating.*

DELIVERY & SYSTEM CHARGES	June 1 through Sept. 30	Oct. 1 through May 31
Rate: (Per Meter)		
Service Charge: (per day)	\$0.9150	\$0.9150
Off-Peak	Period 1	Period 2
8 PM to 10 AM and Saturday and Sunday		
First 125 kWh	\$0.0605	\$0.0605
Excess 125 kWh	\$0.0605	\$0.0605
Peak	Period 3	Period 4
10 AM to 8 PM Weekdays		
First 125 kWh	\$0.0605	\$0.0605
Excess 125 kWh	\$0.1242	\$0.0954

Minimum Charge: Is the Service Charge per meter, per month plus adjustments to rates and charges.

Rate 182: Voluntary Large Residential Service with Multiple Rate Periods

(Space Heating)

Available as an option to customers who use, or are expected to use, more than 39,000 kilowatt hours (kWh) annually or 12,600 kWh for the months of June through September.

Customers on this rate are billed on a meter that records usage during peak and off-peak hours. This rate is available only to qualifying customers who are considered space heating. The electric resistance heater or heat pump supplies all the heating requirement of the building and is permanently connected.

(Fireplaces, coal or woodstoves are excluded)

DELIVERY & SYSTEM CHARGES

<i>Rate: (Per Meter)</i>	<i>June 1 through Sept. 30</i>	<i>Oct. 1 through May 31</i>
Service Charge: (per day)	\$0.9150	\$0.9150
Off-Peak	Period 1	Period 2
8 PM to 10 AM and Saturday and Sunday		
First 125 kWh	\$0.0605	\$0.0605
Excess 125 kWh	\$0.0605	\$0.0455
Peak	Period 3	Period 4
10 AM to 8 PM Weekdays		
First 125 kWh	\$0.0605	\$0.0605
Excess 125 kWh	\$0.1242	\$0.0455

Minimum Charge: Is the Service Charge per meter, per month plus adjustments to rates and charges.

Term: Service to customers in Rates 181, 182, or 184 can be terminated either by the Customer requesting it and upon providing five days written notice to LIPA or by LIPA in the manner provided by its tariff. Customers may switch to another service classification for which they qualify on their annual anniversary date, provided they request the transfer in writing at least 30 days in advance.

Rate 188: Voluntary Residential Service with Multiple Rate Periods

An optional "off-peak pricing" rate for customers whose usage does not qualify for Rate 184, 181, or 182. Customers on this rate are billed on a meter that records usage during peak and off-peak hours.

DELIVERY & SYSTEM CHARGES

<i>Rate: (Per Meter)</i>	<i>June 1 through Sept. 30</i>	<i>Oct. 1 through May 31</i>
Service Charge: (per day)	\$0.1790	\$0.1790
Meter Charge: (per day)	\$0.0900	\$0.0900
Off-Peak (Energy Charge: per kWh)	Period 1	Period 2
8 PM to 10 AM and Saturday and Sunday	\$0.0578	\$0.0437
Peak (Energy Charge: per kWh)	Period 3	Period 4
10 AM to 8 PM Weekdays	\$0.2735	\$0.0888

Minimum Charge: The minimum charge is the service and meter charge plus adjustments to rates and charges.

Term: One year and renewed annually thereafter unless terminated on subsequent anniversary dates by the customer upon five days written notice to LIPA or by LIPA in accordance with the provisions of the tariff. Service will not be restored at the same location to the same customer within one year after termination.

ADDITIONAL INFORMATION

Net metering is available to customers with solar or wind generators. With net metering, the customer is billed only for net consumption, the amount of electricity consumed less the amount of electricity produced by the generator.

If a customer generates more electricity than they consume in a month, then the excess energy produced is "banked" and can be used to offset future consumption. At the end of each 12-month period, LIPA will purchase any remaining energy in the customer's bank at LIPA's avoided cost rate.

Net metering is authorized for a residential solar or wind customer-generator, equal to or less than 27.5 kW.

LIPA Green Choice Program is a voluntary program, in which the Authority's customers may elect to purchase Renewable Energy in the form of environmental attributes. A customer desiring to participate in the program will select an eligible Green Marketer and provide the Green Marketer with the necessary enrollment information. The Green Marketer may offer customers a number of renewable energy service options. This may include renewable energy from wind, hydropower and bioenergy resources. The Green Marketer charges for the attributes will be in addition to your monthly LIPA bill.

Proration of Bills – When the charge under a rate code is for a monthly (30-day) billing period, and a bill covers a period of either more or less than 30 days, this charge will be prorated. Prorating is done by adjusting the charge by a ratio of the number of days shown on your bill to 30

days.

OTHER CHARGES

Power Supply Charges – LIPA's Tariff for Electric Service includes a Fuel and Purchased Power Cost Adjustment ("FPPCA") mechanism (shown on your bill as Power Supply Charges) providing for LIPA to charge its customers for the costs of purchased power and also for fuel used to produce electricity. LIPA does not own generation facilities other than its 18% interest of Nine Mile Nuclear Power Plant. However, LIPA is required to procure on behalf of its customers the energy and capacity necessary to meet its customers needs, including an appropriate reserve margin. The FPPCA is subject to the fluctuations that occur in the current energy marketplace.

Suffolk Property Tax Adjustment – Under a court ordered settlement related to the overpayment of taxes to the Shoreham taxing jurisdictions, dated January 11, 2000, LIPA implemented a plan to refund \$462.5 million to its customers over five years. Furthermore, under the terms of that settlement, LIPA began to collect the costs associated with financing those refunds on behalf of the taxing jurisdictions, less \$5 million contributed from LIPA's own funds, from Suffolk County customers in June 2003.

Revenue Based Pilots & Sales Tax – LIPA is required to make payments equal to the tax revenues from the sale of electricity that would have been collected by cities, incorporated villages and New York State. Your total bill includes a percentage increase equal to the tax rate in effect in your city or incorporated village. In addition, your bill for electric service will be increased by temporary surcharges to recover taxes imposed by New York State for the Metropolitan Transportation Authority (MTA) and other purposes. Sales tax, if applicable, is shown separately on each bill.

Reconnection Charges-When LIPA reconnects a customer's electric service that has been terminated for nonpayment of bills, a reconnection charge of eighty dollars (\$80.00) is applied. A reconnection charge of eighty dollars (\$80.00) will also be billed when a customer requests termination of service and then reapplies for service at the same premises within a twelve (12) month period.
