

# LIPA 2012 EFFICIENT SWIMMING POOL PUMP PROGRAM

## DEALER/INSTALLER LETTER OF AGREEMENT

In an effort to increase the installation of energy efficient residential swimming pool pumps on Long Island, LIPA is again offering an incentive to participating dealers who sell and install 1/2 HP or larger two-speed or variable-speed swimming pool pumps to residential customers within the LIPA electric service area in 2012. Installed pool pumps must include an eligible controller.\* Customers that have an electric account with LIPA are eligible for a separate rebate pending installation by the participating dealer/installer. Residential retrofit and new construction customers are eligible.

Pool Pump Type	Installer Rebate	Customer Rebate
Two-Speed	\$75.00	\$125.00
Variable-Speed	\$100.00	\$200.00

**THE FOLLOWING CRITERIA MUST BE MET IN ORDER TO QUALIFY FOR REIMBURSEMENT:**

- 1) Purchases and installations must be made between **1/1/12** and **11/30/12**.
- 2) Customer Rebate Form must be postmarked no later than **12/31/12**.
- 3) Customer Rebate Form must be completed in full.
- 4) Pool pump customer must have a residential electric account with LIPA.
- 5) Limit four (4) swimming pool pump rebates per LIPA electric customer account.
- 6) Participating dealer/installer must have completed a **LIPA 2012 Dealer/Installer Letter of Agreement**.
- 7) Participating dealers/installers must submit a signed **LIPA Certificate of Completion** from their manufacturer representative, stating the date and location of their product knowledge and installation training session.
- 8) The installer agrees to abide by the pool pump manufacturer's installation guidelines.
- 9) Installed pool pumps must include an eligible internal or external controller\* to qualify for rebate.
- 10) The pool pump should be programmed NOT to operate between 2:00 P.M. and 6:00 P.M.

**\*IMPORTANT CONTROLLER INFORMATION:**

*Pool pump motor control must have the capability of operating at a minimum of two speeds. The control's default circulation speed setting shall be no more than one-half of the motor's maximum rotation rate. Any high speed override capability shall be for a temporary period not to exceed one 24-hour cycle without resetting to default settings.*
