**ENERGY STAR**® qualified clothes washers save energy, save money, and help protect the environment.

Join the national effort to help use energy wisely. Buy appliances that have earned the ENERGY STAR. Only products delivering the highest level of energy efficiency are awarded the ENERGY STAR from the U.S. Environmental Protection Agency and the U.S. Department of Energy.

This year LIPA has teamed up with the EPA to promote the most efficient ENERGY STAR qualified clothes washers on the market. For a limited time only, LIPA customers are eligible for \$50 back on the purchase of eligible ENERGY STAR qualified clothes washers with a Modified Energy Factor (MEF) of 2.20 or higher and a Water Factor (WF) of 4.5 or less. These clothes washers are at least 75% more efficient than conventional models and are backed by the ENERGY STAR label.

Average Consumption	New Conventional Clothes Washer	Standard ENERGY STAR Model	LIPA Rebate Model
kWh/year	820	205	169
Gallons water/year	12,768	6,128	5,199
Yearly cost to operate	\$215.72	\$67.14	\$56.01
Lifetime cost to operate (11 yrs.)	\$2,372.88	\$738.55	\$616.14

\*Costs based on the LIPA rate of .193/kWh and a national average water rate of .0045 per gallon at 7.5 loads per week.

By purchasing an ENERGY STAR qualified clothes washer with this rebate instead of a conventional model, you can:

- Save on average \$160 in energy and water costs each year – that's \$1,760 over the life of the washer!
- Save on average 7,570 gallons of water per year – that's more than 83,000 gallons over the life of the washer!

Just look for the **ENERGY STAR**. Only products delivering the highest level of energy efficiency can earn the ENERGY STAR. Look for it at participating retailers.
