

LIPA Residential Wind Rebate Program Application Form 2010

IMPORTANT: PLEASE READ BOTH PAGES OF THIS FORM THOROUGHLY BEFORE COMPLETING AND KEEP A COPY FOR YOUR RECORDS.
Customers are asked to please submit only one application. Customer is responsible for informing LIPA of any updates to this application.

LIPA Electric Account Number at Installation Address: _____
Customer Name: _____
Installation Address (Street, City, State, Zip): _____
Mailing Address (If Different): _____
Home Telephone: _____ Equipment Purchase Date: _____
Cell Phone: _____ E-Mail Address: _____

Equipment Information ("Wind System")

Wind Turbine Generator	Wind Inverter
Manufacturer: _____	Manufacturer: _____
Name/ Model No.: _____	Name/ Model No.: _____
Number of Generator(s): _____	Number of Inverter(s): _____
Warranty: _____	Warranty: _____
Nameplate Rating: _____	Nameplate Rating: _____

Name of Installer / Contractor: _____

THE FOLLOWING IS REQUIRED BY INSTALLER / CONTRACTOR: ESTIMATED ANNUAL AC KWH: _____

No Wind Rebate ("Rebate") will be assigned to a third party, without the previous consent, in writing, of LIPA, after the Customer first provides a written request, bearing the original signature of the Customer, and naming the third party assignee. The letter must also include the Customer's and Contractor's names, addresses and phone numbers.

Customer Assigning Rebate: Yes No (If yes, use LIPA's approved assignment form)

Applicants must follow all of LIPA's requirements, including but not limited to the "Instructions to Process the Wind System Rebate", listed on the second page of this application, Customers must also submit one complete Wind System Rebate Application, two complete Parallel Generation Agreements, executed by the Customer, product invoices for the Wind System, a "one-line" diagram and a copy of the completed electrical certificate.

Applicants must follow LIPA's requirements, including but not limited to the 5 steps on "Instructions to Process the Wind System Rebate" on the second page of this application.

Rebate Calculation

Estimated annual wind output multiplied by \$3.50 per kWh up to 16,000 kWh annually OR 60% of installed cost, whichever is less
Maximum Rebate = \$56,000

Estimated Annual AC kWh: _____ x \$3.50/kWh = _____

Estimated Total Wind System Cost: _____ x .6 = _____

Lesser of the two: _____ Total Rebate

Approved applicants will receive 65% of the calculated Rebate up front. The remaining 35% will be pro-rated based upon 12 months of metered data at Customer wind site. The actual data will be normalized against the historical average data. The meter must have an accuracy of within +/-5% and a certificate of compliance from the manufacturer.

I, _____ certify that I will purchase the Wind System described in the Equipment Information portion of this application form and will install it or cause it to be installed at the installation address indicated above and will forward to LIPA all required documentation. I reviewed and agree to the terms and conditions of LIPA's Residential Wind Program, and I will obtain all of the necessary permits (i.e. Building, electrical, etc.) that are required for a Wind System installation. I understand that any misrepresentation or inaccuracy in this application may disqualify me at any time, at LIPA's sole discretion from all claims to Rebates offered through LIPA's Residential Wind Program. By participating in this Program, I agree that LIPA obtains and/or retains ownership of all rights to existing and future emissions credits, renewable energy credits, green tags, tradable renewable certificates and/or any and all other environmental benefits associated with the installation of the eligible equipment.

LIPA Residential Wind Rebate Program Terms and Conditions Eligibility Requirements

- 1 To be eligible for a Rebate, you must be an existing LIPA Customer with regard to the site of the installation.
- 2 The Rebated Wind System is required to remain at the address listed on this application. The Customer must also own the property where the Wind System will be installed.
- 3 The Customer must maintain the Wind System in good condition compliant with LIPA's Red Book Construction Standards.
- 4 The Customer is responsible for obtaining all required permits (i.e. building, electrical, etc.).
- 5 The Customer must provide a contractor signed expected performance based site analysis including a Wind System drawing and performance graphs. LIPA reserves the right to base Rebate eligibility on factors such as Wind obstructions, turbulence and topography including man made or natural.
- 6 Only new, grid connected, Wind Systems and current Underwriters Laboratories/Public Service Commission type tested and listed Wind product equipment (per meter), are eligible for a Rebate.
- 7 The Maximum Rebate paid by LIPA per metered account will not exceed 16,000 kWh (\$56,000) or 60% of the total installed costs, whichever is less. The size of the Wind System cannot exceed 105% of the Customers annual energy (kWh) for the prior 12 months.
- 8 LIPA reserves the right to Rebate the Wind System at the current Rebate level at the time of the submission of the application and to credit LIPA account arrears first.
- 9 The Customer must provide the installer's contract, paid invoices and Wind System in order to ensure program compliance.
- 10 LIPA reserves the right to conduct post-installation, follow-up visit(s) in order to provide LIPA with the opportunity to evaluate the installed Wind System and determine the actual kWh output, as well as to confirm Program compliance and Rebate eligibility.
- 11 LIPA will not be responsible for any tax liability imposed on the Customer, including liability incurred as a result of Rebate payments.
- 12 LIPA reserves the right to modify or withdraw this Program and the Rebates payable under the Program at any time and without notice.
- 13 The Customer shall retain all appropriate owner manuals, applications, "one-line" drawings, warranty documents etc. regarding the Wind System.
- 14 Billing credits and/or Rebates will not be offered until the Wind System passes LIPA's field inspection & the Net Meter is installed.
- 15 The Wind System equipment must be metered with an accuracy of +/- 5 %. The Customer is required to provide monthly production data to LIPA for 12 months after installation. All Wind equipment must carry a minimum of a 5 year warranty on the generator, tower and inverters.
- 16 The Customer is required to meet the eligibility for Net Metering in order to receive a LIPA Rebate. (See tariff leaf 34G.)
- 17 Applicants for a Rebate with respect to new construction can submit an estimate of the average energy use for such new construction, using a comparative analysis that is based on the total square area, in square feet, of the home.
- 18 The Customer must submit the Serial Numbers for the Generator & Inverters with pre and post installation photographs of the Wind System and System site in 4 directions (N,E,S,W) and the respective Invoice(s).
- 19 Incentives will be calculated in accordance with LIPA's rebate amounts that are offered at the time the application is received by LIPA. In instances where wattage is added to a previously approved rebate or more than one application is received on the same metered account the total rebate amount will be based upon the cumulative amount of generation installed.

Instructions to Process the Residential Wind Rebate

- 1 Wind documents can be downloaded from LIPA's web site at www.lipower.org or obtained from a Wind Installer. Incomplete applications and missing documentation will delay or prevent the processing of an application. Customers must use a copy of this form to submit any changes or updates to their Wind System and send these updates to the address (or fax number) listed below.
- 2 Applicants shall submit to LIPA the completed 1) Original rebate application, 2) Two Parallel Generation Agreement forms, 3) A "one-line" diagram (listing the components) of the Wind System, 4) Expected performance based analysis, production graphs and 5) A Site Survey and send them to:

**LIPA Residential Wind Program
Rebate Processing
25 Hub Drive
Melville, NY 11747
or
Wind@Service.LIPower.org**
- 3 When the LIPA Wind application is approved, Customers will then receive a LIPA pre-approval Rebate letter indicating the Rebate amount and the installation time frame for the Wind System.
- 4 Once the Wind System is installed, submit a copy of the temporary or approved electrical certificate issued by the Board of Fire Underwriters (or agency having jurisdiction) to LIPA's Rebate Processing address (listed above) or fax the documents to **631-755-5375**. Upon this documentation, LIPA will conduct a functional test of your Wind System and install the appropriate meter.
- 5 Itemized invoice(s) must contain all Wind equipment model and serial numbers, and include purchase/installation date(s) and the LIPA Residential Wind Application number. If any information is missing from the product invoice(s), LIPA will not be able to determine the Customer's eligibility for a Rebate. LIPA provides Rebates based in part on the product invoice. Upon completing the installation of the Wind System, please send copies of your itemized Wind invoices to the Rebate Processing address listed above in step 2 or fax the invoice(s) to 631-755-5375. Please include your LIPA Wind application number on all correspondence.

After completion of all the steps listed above, please allow up to 60 days for delivery of the Rebate check. Successful completion of an operational test of your installed Wind System and submission of all documentation is required before the Rebate check will be issued.
