LIPA CONNECTS Procedure for Electrical Contractors

LIPA CONNECTS Applies only to change of service that qualifies for all of the following conditions:

1. Residential Accounts
2. Single family house with a single meter
3. Single phase electric power
4. Existing 3 wire service entrance
5. Service entrance equipment NOT exceeding 200 amperes
6. Electrical Inspection Certificate (attached)

LIPA CONNECTS Does not apply to the following:

1. Commercial accounts
2. Multi-metered facilities
3. Three-phase electric power
4. Underground (existing or changing to) service cables
5. Service entrance equipment exceeding 200 amperes
6. New service or addition of meter(s)

The Electrical Contractor provides LIPA, Electric Design and Construction Department with the following completed forms:

- a) **The Electrical Inspection Agency Certificate**
- b) LIPA CONNECTS forms

LIPA's Electric Design and Construction Department will provide the following items to the Electrical Contractor in advance:

- a) Permanent connectors
- b) LIPA CONNECTS forms

Replenishment of initial stock will be issued to the contractors based on demonstrated prior usage.

Proceed as follows, depending on method of contact:

- a) Fax or mail the required paperwork to the nearest Electric Design and Construction Office
- b) Proceed with the installation
