# LIPA Light Solutions

---

LIPA Light Solutions provides two quality options to help you meet your exterior lighting needs; Utility-Owned Solutions and Customer-Owned Solutions. Whether you are renovating your facility or simply looking to improve the efficiency and performance of your exterior lighting system, LIPA's Light Solutions Program is the answer.

## Utility-Owned Solutions

Under this solution, LIPA owns the equipment and provides installation and maintenance for one low monthly fee. Our utility-owned fixtures respect Long Island's environment and provide you with outdoor lighting that is attractive, convenient and cost effective. LIPA professionals will survey your outdoor facilities and develop a lighting design to meet your needs.

**It's Efficient!** By incorporating state-of-the-art lighting choices and the latest applications of optics, materials and accessories, Utility-Owned Solutions offers customers options that provide efficiency, performance and affordability for outdoor lighting.

**It's an Environmental Partnership!** The biggest new advantage of Utility-Owned Solutions is that it provides businesses with a whole new way to light their facilities with a full cut-off fixture that directs light down, not up. Your customers and area residents will appreciate your contribution towards minimizing the impact of lighting on Long Island's night time environment.

**It's Smart and Cost-Effective!** Utility-Owned Solutions offers you a full service package which includes: equipment, installation on an existing utility pole, energy and maintenance, for one low monthly fee.

## Customer-Owned Solutions

If your lighting requirements can't be met through our Utility-Owned Solutions, LIPA's Customer-Owned Solutions may be the answer.

LIPA has partnered with a network of Light Solutions Providers who can meet with you to recommend lighting designs, provide cost estimates, and ensure that your new outdoor lighting project adheres to Town and Village codes. **You can select the LIPA Solutions Provider of your choice from our list of qualified partners.**

**LIPA Light Solutions offers the right choices for today's business. Let us show you how. Call LIPA's Energy Infoline at 1-800-692-2626 or visit us online at [www.lipower.org/commercial/lightsol](http://www.lipower.org/commercial/lightsol).**
