

# Retirement at 10?

## It could save you 40%.

If the central air conditioner (CAC) is cranked up and you're wondering if it's cooler *outside*, it may be time for LIPA's *Cool Homes Early Retirement* program. Even a 10 year-old system could be **wasting 40%** of the money you're spending on cooling – without giving the comfort you want.

Replace it through *Cool Homes* and get a high-efficiency CAC system that's the right size and installed correctly.

LIPA will help start you off with a rebate of up to \$700 on a new system, so you'll have more summer comfort and **\$250 in savings each year**. Choose from our list of pre-qualified *Cool Homes* contractors, or ask your licensed contractor to participate.

Visit [www.lipower.org/efficiency](http://www.lipower.org/efficiency) or call 1-800-692-2626.

# Less Waste Less Clutter Go Paperless

**LIPA's *eLERT* paperless billing program is a step in the right direction.**
