

Stay in control.

Getting your bills online is great for you and our planet – you can also get your LIPA bills in line. Our Balanced Billing program provides a monthly electric bill with no surprises, similar to a rent or mortgage payment.

Balanced Billing keeps you in control by eliminating seasonal bill fluctuations. It costs no more or less than standard billing and we review your account periodically to make sure your payments and actual usage are in alignment. If there is any significant difference, your payment may be adjusted.

To get your bills in line, enroll in Balanced Billing online at www.lipower.org or by using our automated telephone services at 1-800-490-0025.

Want to do your part for the environment?

Get online.

Online billing with *e-LERT* is great for the environment and you. It lets you skip a trip to the mailbox because you receive an e-mail each time your bill is ready to be viewed at www.lipower.org.

In fact, you can view up to 24 months of past bills, anytime, 24/7. With your bills online, there's less paper clutter in your home, and no searching through files when you need an old bill.

Aside from those benefits, *e-LERT* also helps you do a good thing for the environment by using less paper. Paper production not only requires trees, but vast amounts of water and energy. Paper and packaging make up one third of landfill waste.

Do yourself and your planet some good by signing up for *e-LERT* today using "My Account" at www.lipower.org/account.
