

A close-up photograph of a person's hands working at a desk. The person is wearing a light purple long-sleeved shirt. Their right hand holds a dark blue pen over a black calculator. Their left hand is near a spiral-bound notebook with a grid pattern. There are several white papers scattered on the desk, some of which appear to be utility bills or spreadsheets. The background is a plain, light-colored wall.

## COMMERCIAL BALANCED BILLING

*Your bill...just more predictable.*

LIPA's Commercial Balanced Billing Program spreads out your energy costs over the year, giving you a more "balanced" monthly payment.

It doesn't reduce your costs, but does help you budget expenses by eliminating seasonal fluctuations in your electric bill.

Your payment amount can be adjusted during the year if there is a significant change in your usage, but you'll always know in advance what your payment will be the following month.

To enroll in Commercial Balanced Billing, call our Business Call Center at **1-800-966-4818**.

# Help Your Inbox. *Go Paperless*

Join thousands of other Long Island businesses who have lowered their postage costs, saved time, and reduced paper clutter; all while benefitting the environment. You can go paperless with LIPA's free *e-LERT* online billing program and we'll alert you each time a new bill is ready online. You'll have access to your current and past bills in a format that looks just like your printed bill, and is easy to download or print.

Simply visit us online at [www.lipower.org/account](http://www.lipower.org/account) and sign up for *e-LERT* paperless billing. While you're there, don't forget about **DirectPay** for automatic paperless payments.
