Mr. Shansky and Ms. O’Connor presented the following action item and took questions from the Trustees:

Requested Action

The Oversight and REV Committee (the “Committee”) of the Board of Trustees of the Long Island Power Authority (the “Board”) is requested to adopt a resolution recommending: (i) approval of the annual report on the Board Policy on Oversight (the “Policy”); (ii) finding that the Long Island Power Authority and its subsidiary, LIPA (collectively the “Authority” or “LIPA”) have complied with the Policy; and (iii) approval of certain amendments to the Policy, which resolution is attached hereto as Exhibit “A”.

Background

The Authority utilizes contracts with service providers to provide transmission and distribution operations services, fuel and power procurement, and power supply resources. Under the LIPA Reform Act and the Amended and Restated Operations Services Agreement (the “OSA”), the Authority has oversight rights and certain responsibilities with respect to those contracts, the operation and maintenance of the Long Island electric grid, and the generation assets under contract to LIPA.

By Resolution No. 1409, dated March 29, 2018, the Board adopted the Policy with the purpose of establishing the Board’s expectations for oversight by the Authority of the “service providers in a systematic manner that meets the needs and protects the interests of the Authority’s customers”.

Compliance with the Policy

Staff recommends that, for the reasons set forth below, the Board find that the Authority has complied with the Policy since the adoption of the policy last year.

The Policy requires that the Chief Executive Officer annually report to the Board on the Policy, including: (i) work plans for Authority staff for each year; (ii) accomplishments versus the work plan for the prior year; (iii) oversight findings that involve material deviations from contract standards or that represent a significant risk to the Authority or its customers; (iv) activities that foster continuous improvement; and (v) sufficiency of Authority staff and resources to achieve oversight goals.
2018 Work Plan Accomplishments:

• Attached as Exhibit “C” is the 2018 Accomplishments Report (the “2018 Accomplishments Report”). The 2018 Accomplishments Report provides a summary of LIPA staff’s 2018 accomplishments toward meeting the expectations of the LIPA Trustees and serving the needs of LIPA’s customer-owners.

• The 2018 Accomplishments Report documents Staff’s progress on the 91 initiatives identified in the 2018 Work Plan as activities that would further the Board’s policies in LIPA’s key performance areas such as customer service, reliability, clean energy and affordability.

• As discussed in more detail in the 2018 Accomplishments Report, Staff completed 57 of the 91 goals and made significant progress on the remaining 34, with additional work to be completed during 2019.

2019 Work Plan:

• Attached as Exhibit “D” is the 2019 Work Plan. The 2019 Work Plan describes the activities that LIPA Staff intends to undertake to further the Authority’s mission and the Board’s policies in the areas of Reliability, Customer Service, Oversight, Resource Planning, Energy Efficiency and Renewables, Regionally Comparable Electric Rates, and Taxes, PILOTs and Assessments.

• The 2019 Work Plan describes those activities that LIPA Staff believes are critical to advancing the Board Policies and LIPA’s mission and are achievable based on current staffing levels and budgets.

• The 2019 Work Plan includes activities for which LIPA has direct responsibility, like finance and legal, and oversight activities for functions for which LIPA’s service providers, including PSEG Long Island and National Grid have direct responsibility.

Oversight findings that involve material deviations from contract standards or that represent a significant risk to the Authority or its customers:

• Staff has reviewed its oversight observations and audit findings and concludes that none constitute a material deviation or significant risk to the Authority or its customers.

Activities that foster continuous improvement:

• As discussed with specificity in the 2018 Work Plan Accomplishments Report, many of the accomplishments Staff achieved during 2018, and the new plans and initiatives Staff will develop in response to its experiences with the 2018 Work Plan, will foster continuous improvement.

• Specifically, Staff (i) worked with the other stakeholders in the State to implement and advance the clean energy and renewables policies that are currently under
development; (ii) explored additional avenues for reducing costs through financial tools; (iii) increased communications with customers and other key stakeholders; and (iv) improved its planning methods, tools and management processes. PSEG Long Island also undertook several initiatives, and the Report describes Staff’s oversight of those projects.

**Sufficiency of Authority Staff and resources to achieve oversight goals:**

- As shown in the 2018 Accomplishments Report, Staff completed 57 of the 91 goals it set in the 2018 Work Plan and made significant progress on the remaining 34.

- Staff has identified certain gaps in its resources that warrant adding positions or consulting resources in the information technology department. Those positions are expected to be filled in 2019.

**Annual Review of the Policy**

Staff proposes changes to the Policy, as detailed below and more specifically set forth in Exhibit “B”.

In addition to its oversight responsibilities, the Authority has certain responsibilities for managing the affairs of the Authority in the interests of its customer-owners. These responsibilities include budgets, electric rates, and tariffs; setting wholesale markets policy; debt management, and funding the capital program, among other areas. While LIPA management has the primary responsibility for formulating and executing the work plans that advance the Board’s policies in these areas, certain amendments are proposed to the Policy to ensure periodic reporting to the Board of the plans formulated by management to advance the Board’s policies and LIPA’s mission and values.

The Policy will thereby establish the expectations of the Board for both the oversight of the Authority’s service providers and management of the Authority’s affairs and require regular reporting by Staff to enable the Board to assess the activities called for by the Policy. To reflect these Policy amendments, the Policy is proposed to be renamed the Policy on Oversight and LIPA Operations.

Additionally, certain other non-material wording changes are proposed.

**Recommendation**

Based upon the foregoing, I recommend approval of the above requested action by adoption of a resolution in the form attached hereto.

_A motion was made and seconded, and the Trustees unanimously adopted the following resolution:_
