#### IV. BACKGROUND

The Authority, acting through its wholly-owned subsidiary LILCO d/b/a LIPA, provides electric service in its service area which includes two counties on Long Island — Suffolk County and Nassau County — and a portion of the Borough of Queens of The City of New York known as the Rockaways (“the Service Area”). The Authority is a corporate municipal instrumentality and a political subdivision of the State of New York (the “State”), exercising essential governmental and public powers. The Authority was created by the State Legislature under and pursuant to the Long Island Power Authority Act, being Title 1-A of Article 5 (§ 1020 et seq.) of the Public Authorities Law of the State of New York, as amended (the “Act”), including as amended by certain provisions of the LIPA Reform Act (defined below). The Authority is comprised of itself, LILCO d/b/a LIPA, (a wholly owned subsidiary of the Authority) and provides management support to the Utility Debt Securitization Authority (“UDSA”) (a special purpose corporate municipal instrumentality of the State that has a governing body separate from that of the Authority). LILCO d/b/a LIPA is a stock corporation formed and existing under the Business Corporation Law of the State of New York and pursuant to LILCO d/b/a LIPA’s organizational documents, the Authority conducts and manages LILCO d/b/a LIPA’s business and affairs. Accordingly, LILCO d/b/a LIPA is controlled by the Authority, which is governed by a Board of Trustees (the “Trustees”).

The Authority assumed responsibility as the retail supplier of electric service in the Service Area (with the exception of the villages of Freeport, Greenport and Rockville Centre, each of which has an individually owned municipal electric system) on May 28, 1998 by acquiring the Long Island Lighting Company (“LILCO”) through a merger (the “LIPA/LILCO Merger”). Through the LIPA/LILCO Merger, LILCO became a wholly-owned subsidiary of the Authority and it has thereafter done business under the name Long Island Lighting Company d/b/a LIPA.

To assist LIPA in providing electric service in the Service Area, the Authority and LILCO d/b/a LIPA have generally entered into operating agreements to provide LIPA with the operating personnel and a significant portion of the power supply resources necessary to continue to provide electric service in the Service Area. On January 1, 2014, the Authority transitioned to a new business model first adopted by the Board in late 2011 and more recently modified in response to the requirements of the LIPA Reform Act. The Authority’s principal operating agreements now include:

T&D System management including, among other functions, the day-to-day operation and maintenance, customer service, billing and collection and meter reading:

As of January 1, 2014, a wholly-owned subsidiary of Public Service Enterprise Group Incorporated (“PSEG”) dedicated to LIPA’s operations (“PSEG LI”) is the service provider pursuant to a twelve-year Amended and Restated Operations Services Agreement (the “Amended OSA”).

Power Supply Management (including capacity and related energy) from the existing oil and gas-fired generating plants on Long Island owned by a subsidiary of National Grid plc (“GENCO”) that were formerly owned by LILCO (“GENCO Generating Facilities”):

Since the LIPA/LILCO Merger, GENCO has furnished electric capacity and energy from GENCO Generating Facilities to LIPA. The initial Power Supply Agreement (“PSA”) between LILCO d/b/a LIPA and GENCO expired on May 28, 2013. In 2012, LILCO d/b/a LIPA and GENCO entered into a new PSA that commenced in May 2013 for a term of 15 years, which provides for LIPA’s purchase of capacity and related energy from the GENCO facilities.

#### Energy and Fuel Management:

Pursuant to the Amended OSA and in furtherance of the objectives of the LIPA Reform Act, beginning on January 1, 2015, affiliates of PSEG, PSEG Services and PSEG Energy Resource & Trade (“PSEG ER&T”) have entered into agreements with LIPA to provide all energy and fuel management services.

#### The LIPA Reform Act

The LIPA Reform Act, enacted on July 29, 2013, brought greater accountability and transparency to the delivery of electricity in LIPA’s Service Area by: (i) authorizing the reformulation of the relationship between LIPA and PSEG LI such that PSEG LI assumes responsibility related to utility operations in the Service Area; (ii) creating a new Long Island-based office in the Department of Public Service (“DPS”), which is the staff arm of the New York Public Service Commission; and (iii) authorizing the retirement of a portion of the Authority’s outstanding debt from the proceeds of the UDSA’s Bonds at lower interest rates than existing indebtedness and capping or eliminating certain categories of payments in lieu of taxes (“PILOT”), with savings passed onto ratepayers.

Among other things, the LIPA Reform Act addressed a variety of matters relating to the restructuring of the LIPA. It established a new office within DPS to review and make recommendations to the Authority and/or PSEG LI related to core utility functions including capital expenditures, the methods employed by PSEG LI for safe and adequate service and the emergency response plans of PSEG LI. The LIPA Reform Act gave DPS the responsibility to investigate and mediate customer complaints. Upon notification to the Authority, DPS may undertake a comprehensive and regular management and operations audit.

Under LIPA’s current agreements, legal services related to the day-to-day operations of the T&D system are performed, either directly or indirectly, by the service provider. For LIPA’s internal needs, a small, in-house legal staff is available, that is supplemented by several outside law firms to provide advice, assistance and representation related to certain, discrete practice areas. LIPA draws upon these resources as needed.
