As usual can't correct wrong phone number. 917.2089658. There are a lot of trees here that need to be cut. There's a transformer behind our garage I've called it on before. Nothing was done. If it blows 2 houses will burn. Another in the middle of the woods across the street. Called it in again nothing done. Huge bills...out 16 days after Sandy 7 after Isias. You almost killed my senior dog who needs refrigerated food. You all should be fired and replaced. Total incompetence.
