**Your Comment**

Hello,

My name is Robert McCarthy, and I am resident in Garden City. I am writing today to add my voice to others that are calling for LIPA to cut ties with PSEG for their failure to put the needs of the citizens above their own needs. I support a fully public plan, as public utilities can function much more effectively than a private company for energy distribution. Public power will ensure that the tax payers and rate payers save money and make the organization more responsive to users' needs.

I think back to Hurricane Sandy when Rockville Centre was able to get their public power grid up a lot faster than private companies, and I know that public power is the best plan.

Thank you.
