LONG ISLAND POWER AUTHORITY

(A Component Unit of the State of New York)

Introduction

The Long Island Power Authority (LIPA) is a component unit of New York State (State). LIPA became the retail supplier of electric service in the counties of Nassau and Suffolk (with certain limited exceptions) and a portion of Queens County known as the Rockaways (Service Area), on May 28, 1998 by acquiring the transmission and distribution (T&D) system of the Long Island Lighting Company (LILCO). LILCO is a wholly owned subsidiary of LIPA, doing business as LIPA and Power Supply Long Island. As part of the LILCO acquisition, LIPA also acquired an undivided 18% interest in the Nine Mile Point Unit 2 (NMP2) generating facility, located in upstate New York, which is operated and managed by Exelon Corporation. LIPA provides electric delivery service in the Service Area, which includes approximately 1.1 million customers. The population of the Service Area is approximately 2.9 million.

LIPA was established as a corporate municipal instrumentality State, constituting a political subdivision of the State, created by Chapter 517 of the Laws of 1986 (the LIPA Act). As such, it is a component unit of the State and is included in the State's annual financial statements.

LIPA is also subject to the LIPA Reform Act, codified as Chapter 173, Laws of New York (Reform Act), which created the Securitization Law and established the Utility Debt Securitization Authority (UDSA). The Securitization Law's purpose was to provide a legislative foundation for the UDSA's issuance of restructuring bonds to allow LIPA to retire a portion of its outstanding indebtedness, providing savings to LIPA's customers on a net present value basis. The restructuring bonds are repaid by an irrevocable, nonbypassable restructuring charge on all LIPA's customers. The UDSA has a governing body separate from that of LIPA and has no commercial operations. The UDSA is included as a blended component unit of LIPA.

The Securitization Law allowed the UDSA to issue restructuring bonds totaling approximately \$4.5 billion, the proceeds of which refunded LIPA bonds and generated total net present value debt service savings of \$492 million for LIPA's customers. LIPA successfully sought a change to State law to permit the UDSA to issue up to \$8.0 billion of securitized bonds (inclusive of the bonds already issued) for refinancing, storm hardening and resiliency purposes. The legislation authorizing the change was signed into law on August 2, 2021.

To assist LIPA in providing electric service to its customers, LIPA entered into operating agreements to provide LIPA with the operating personnel, and a significant portion of the power supply resources, necessary for LIPA to provide electric service in the Service Area.

PSEG Long Island is LIPA's service provider pursuant to the Amended and Restated Operations Services Agreement (A&R OSA). Under the A&R OSA, the PSEG Long Island management company is the contracting entity with LIPA. PSEG Long Island is a wholly-owned subsidiary of Public Service Enterprise Group (PSEG). The A&R OSA provides for the operation, maintenance, and related services for the T&D system. PSEG Long Island is paid a management fee and may earn incentives related to specified performance metrics. Essentially all costs of operating and maintaining LIPA's T&D system incurred by PSEG Long Island are passed through to, and paid for, by LIPA.

LIPA also has a contract with PSEG Energy Resources and Trade LLC (PSEG ER&T) to provide for services related to fuel and power supply management and certain commodity activities. Separately from its contract with PSEG ER&T, LIPA maintains power purchase agreements with third party power generators.

LONG ISLAND POWER AUTHORITY

(A Component Unit of the State of New York)

Overview of the Consolidated Financial Statements

LIPA is engaged in business type activities and follows financial reporting for enterprise funds. LIPA's basic unaudited consolidated financial statements include three financial statements: The Consolidated Statements of Net Position, the Consolidated Statements of Revenues, Expenses and Changes in Net Position and the Consolidated Statements of Cash Flows. These financial statements are prepared on an accrual basis in accordance with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). LIPA publishes interim financial results on a quarterly basis with a fiscal year ending December 31. The interim consolidated financial statements and related Management's Discussion and Analysis do not include all the information and notes required under GAAP for annual consolidated financial statements. Therefore, the Management's Discussion and Analysis of LIPA's six-month period ended June 30, 2021 compared to 2020 should be read in conjunction with the annual audited consolidated financial statements, which may be found on LIPA's website at www.lipower.org.

LIPA's reporting entity is comprised of itself and (i) its operating subsidiary LILCO and (ii) the UDSA. All significant transactions between LIPA, LILCO and UDSA have been eliminated.

Contacting the Long Island Power Authority

This financial report is designed to provide LIPA's bondholders, customers, and other interested parties with a general overview of LIPA's finances and to demonstrate its accountability for the funds it receives. If you have any questions about this report or need additional information, contact LIPA at 333 Earle Ovington Blvd., Suite 403, Uniondale, New York 11553, or visit LIPA's website at www.lipower.org.

Operational Updates

The Proposed PSEG Long Island Settlement Agreement

On Tuesday, August 4, 2020, Tropical Storm Isaias caused significant damage to LIPA's T&D system and caused approximately 645,000 customer outages, making it the third-most damaging storm to impact the system. LIPA established an Isaias Task Force to undertake a thorough analysis of the root causes underlying the failures of PSEG Long Island's customer communications and outage management system during the storm. LIPA sought organizational and contractual changes as recommended by the Task Force.

On June 27, 2021, LIPA reached a tentative settlement agreement with PSEG Long Island (the Proposed Settlement Agreement), the terms of which are expected to provide improvements to the A&R OSA. The effectiveness of the terms outlined in the Proposed Settlement Agreement is subject to, among other things: revisions to the A&R OSA to reflect the terms of the Proposed Settlement Agreement; and review and approval by LIPA's Board. The following is a brief summary of certain of the provisions of the Proposed Settlement Agreement.

In order to provide stronger protections for Service Area customers, pursuant to the Proposed Settlement Agreement, the reformed A&R OSA would: increase the amount of PSEG Long Island's annual compensation at risk from \$10 million to \$40 million; include automatic compensation reductions for failures to meet minimum emergency response, customer satisfaction, and reliability standards; and provide a new NYS Department of Public Service (DPS) investigative process to reduce compensation for failures to provide safe, adequate, and reliable service to customers. In addition, PSEG Long Island would be subject to detailed performance requirements set annually by the Board and DPS to ensure it meets industry best practices across all services provided to LIPA. The reformed A&R OSA would also strengthen the service provider's Long Island-based management team, ensuring that all Long Island employees report to managers on Long Island, and linking the compensation for all PSEG Long Island employees to Service Area performance. Lastly, the Proposed Settlement Agreement would eliminate PSEG Long Island's eight-year term extension option; instead, the reformed A&R OSA will expire on December 31, 2025, subject to extension upon mutual agreement.

Impacts from the COVID-19 Pandemic

In response to the COVID-19 health crisis, Governor Andrew M. Cuomo instituted the "New York State on Pause" executive order, which directed non-essential businesses in the State to close in-office personnel functions resulting in all non-essential businesses being required to close on March 22, 2020. LIPA has been taking steps to address the ongoing pandemic to ensure the health and safety of its employees and to sustain the T&D System for Service Area customers.

To ensure that customers impacted by the COVID-19 pandemic have access to essential electricity service, LIPA's Board has suspended customer terminations and late payment charges; extended the grace period for low- and moderate-income customers to renew bill discounts; suspended reconnection fees for commercial customers who choose to disconnect their electric service during pauses in business activity; and eased repayment terms for customers entering into deferred payment agreements.

LONG ISLAND POWER AUTHORITY

(A Component Unit of the State of New York)

Management's Discussion and Analysis (Unaudited)

Six-month period ended June 30, 2021

As required by New York law, the suspension on terminations will continue until the end of 2021 for residential and small business customers who attest to pandemic-related financial distress. LIPA intends to follow guidance issued by the New York Department of Public Service regarding implementation of a phased approach to resuming terminations for non-payment.

In addition, the economic impact of the pandemic has also resulted in increased arrears balances. LIPA increased its allowance for expected write-offs and LIPA's Board approved a modification to the Delivery Service Adjustment (DSA) to recover write-offs above amounts budgeted in 2021. The DSA related to write-offs totaled approximately \$13 million as of June 30, 2021.

On March 20, 2020, the Federal Emergency Management Agency (FEMA) announced that federal emergency funds will be made available for recovery efforts related to the COVID-19 pandemic. LIPA has been approved for public assistance; however, as no grant application has been finalized or approved LIPA's Consolidated Financial Statements do not include any potential amounts for FEMA reimbursement.

LIPA will continue to monitor developments relating to the COVID-19 pandemic; however, LIPA cannot predict the extent to which COVID-19 may have an effect on its liquidity, financial condition, and results of operations.

Certain Litigation Related to Payments in Lieu of Taxes

By statute, LIPA makes payments in lieu of taxes (PILOTs) for real property it acquired from LILCO. Beginning in calendar year 2015, the LIPA Reform Act capped LIPA's PILOT payments to no more than 2% higher than the prior calendar year.

In 2017, LIPA received notices from Suffolk County claiming to enforce liens against certain of LIPA properties for alleged unpaid real estate taxes. LIPA has paid the PILOT amounts it is authorized to pay by law. Furthermore, Suffolk County lacks legal authority to enforce a tax lien on LIPA's property. LIPA filed a legal action to negate any attempt by Suffolk County to enforce the alleged tax liens. LIPA also filed suit against the ten Suffolk County towns to ensure that they comply with the annual 2% limit on growth in such taxes.

On April 1, 2021, the Supreme Court, Suffolk County issued a Decision and Order that found: (1) LIPA's T&D properties are not exempt from real-property taxation for tax years 2014/15 through 2019/20 by reason of LIPA's failure to timely challenge its unlawful assessment as non-exempt, taxable properties by the Town Assessors during those tax years; and (2) compelling LIPA to pay to Suffolk County the unpaid real property taxes levied against the T&D properties for tax years 2014/15 through 2019/20, with interest and penalties in the amount of approximately \$67 million. LIPA filed its notice of appeal on April 30, 2021. In addition, LIPA does not believe this litigation will have a material adverse impact on the business or the affairs of LIPA or its subsidiary, LILCO.

Management's Discussion and Analysis (Unaudited)

Six-month period ended June 30, 2021

Management's Discussion and Analysis (Unaudited)

Financial Condition Overview

Six-Month Period ended June 30, 2021 compared to 2020

Change in net position

Net position decreased \$80 million for the six-month period ended June 30, 2021, compared to the decrease for six-month period ended June 30, 2020 of \$95 million.

Operating revenues

Operating revenue increased \$123 million compared to the six-month period of 2020, primarily due to (i) an increase in the Power Supply Charge and (ii) an increase in the Delivery Service Adjustment (DSA).

Operating expenses

The Power Supply Charge, including property taxes, increased \$100 million when compared to the same six-month period of 2020 primarily due to higher commodity and purchased power costs, driven in part by increased sales in 2021.

Operations and maintenance expense increased \$6 million compared to the same six-month period of 2020 due to higher costs associated with (i) information technology solutions (ii) software maintenance (iii) telecommunications and (iv) storm remediation.

Storm restoration expense increased \$7 million when compared to the same six-month period of 2020 due to a significant storm in the first quarter of 2021.

General and administrative expense increased \$3 million when compared to the same six-month period of 2020 due to timing of consultant costs.

Non-operating revenues and expenses

Other income increased \$16 million compared to the same six-month period of 2020 primarily due to recognition of unamortized upfront borrowings received on three basis swaps which were terminated in 2021. This increase was partially offset by decreases in valuations on investments.

(A Component Unit of the State of New York)

Management's Discussion and Analysis (Unaudited)

Six-month period ended June 30, 2021

Liquidity and Capital Resources

LIPA's policy is to, at all times, maintain cash on hand and available credit equivalent to at least 120 days of operating expenses. As of June 30, 2021 and December 31, 2020, LIPA's available sources of liquidity for operating purposes and capital program funding, as displayed below, achieved the policy target.

<i>amounts in thousands</i>	June 30, 2021	Days Cash	December 31, 2020	Days Cash
Operating liquidity				
Unrestricted cash, cash equivalents, and investments	\$ 564,055		\$ 727,395

Six-month period ended June 30, 2021

Regulatory Assets and Liabilities

The table below displays LIPA's costs to be recovered from, or returned to, LIPA's customers in a future period (regulatory assets or liabilities). Amounts to be recovered within one-year period increased \$46 million as of June 30, 2021 compared to December 31, 2020 due primarily to the timing of the recovery mechanism related to the Power supply charge.

<i>(amounts in thousands)</i>	<u>2021</u>	<u>2020</u>
Regulatory assets to be recovered within one year:		
OSA – employee retirement benefits	\$ 54,006	54,006
