

LIPA Statement No. 5 - LSRV

Long Island Power Authority

Statement of Locational System Relief Value ("LSRV") Areas

Applicable to those Rate Codes and Customers

Subject to the Phase One Value Stack

As set forth in the Tariff for Electric Service

Applicable to all metered accounts with Customer-generators subject to the Value Stack with rate codes within Service Classification Nos. 2L, 2L-VMRP, 2-MRP or 12.

The location-specific Locational System Relief Value ("LSRV"). will be set by each Large Customer Project at their in service date, for the period of ten years, based on the LSRV value for that location.

Current Substations in the Authorities service territory eligible for a LSRV are:

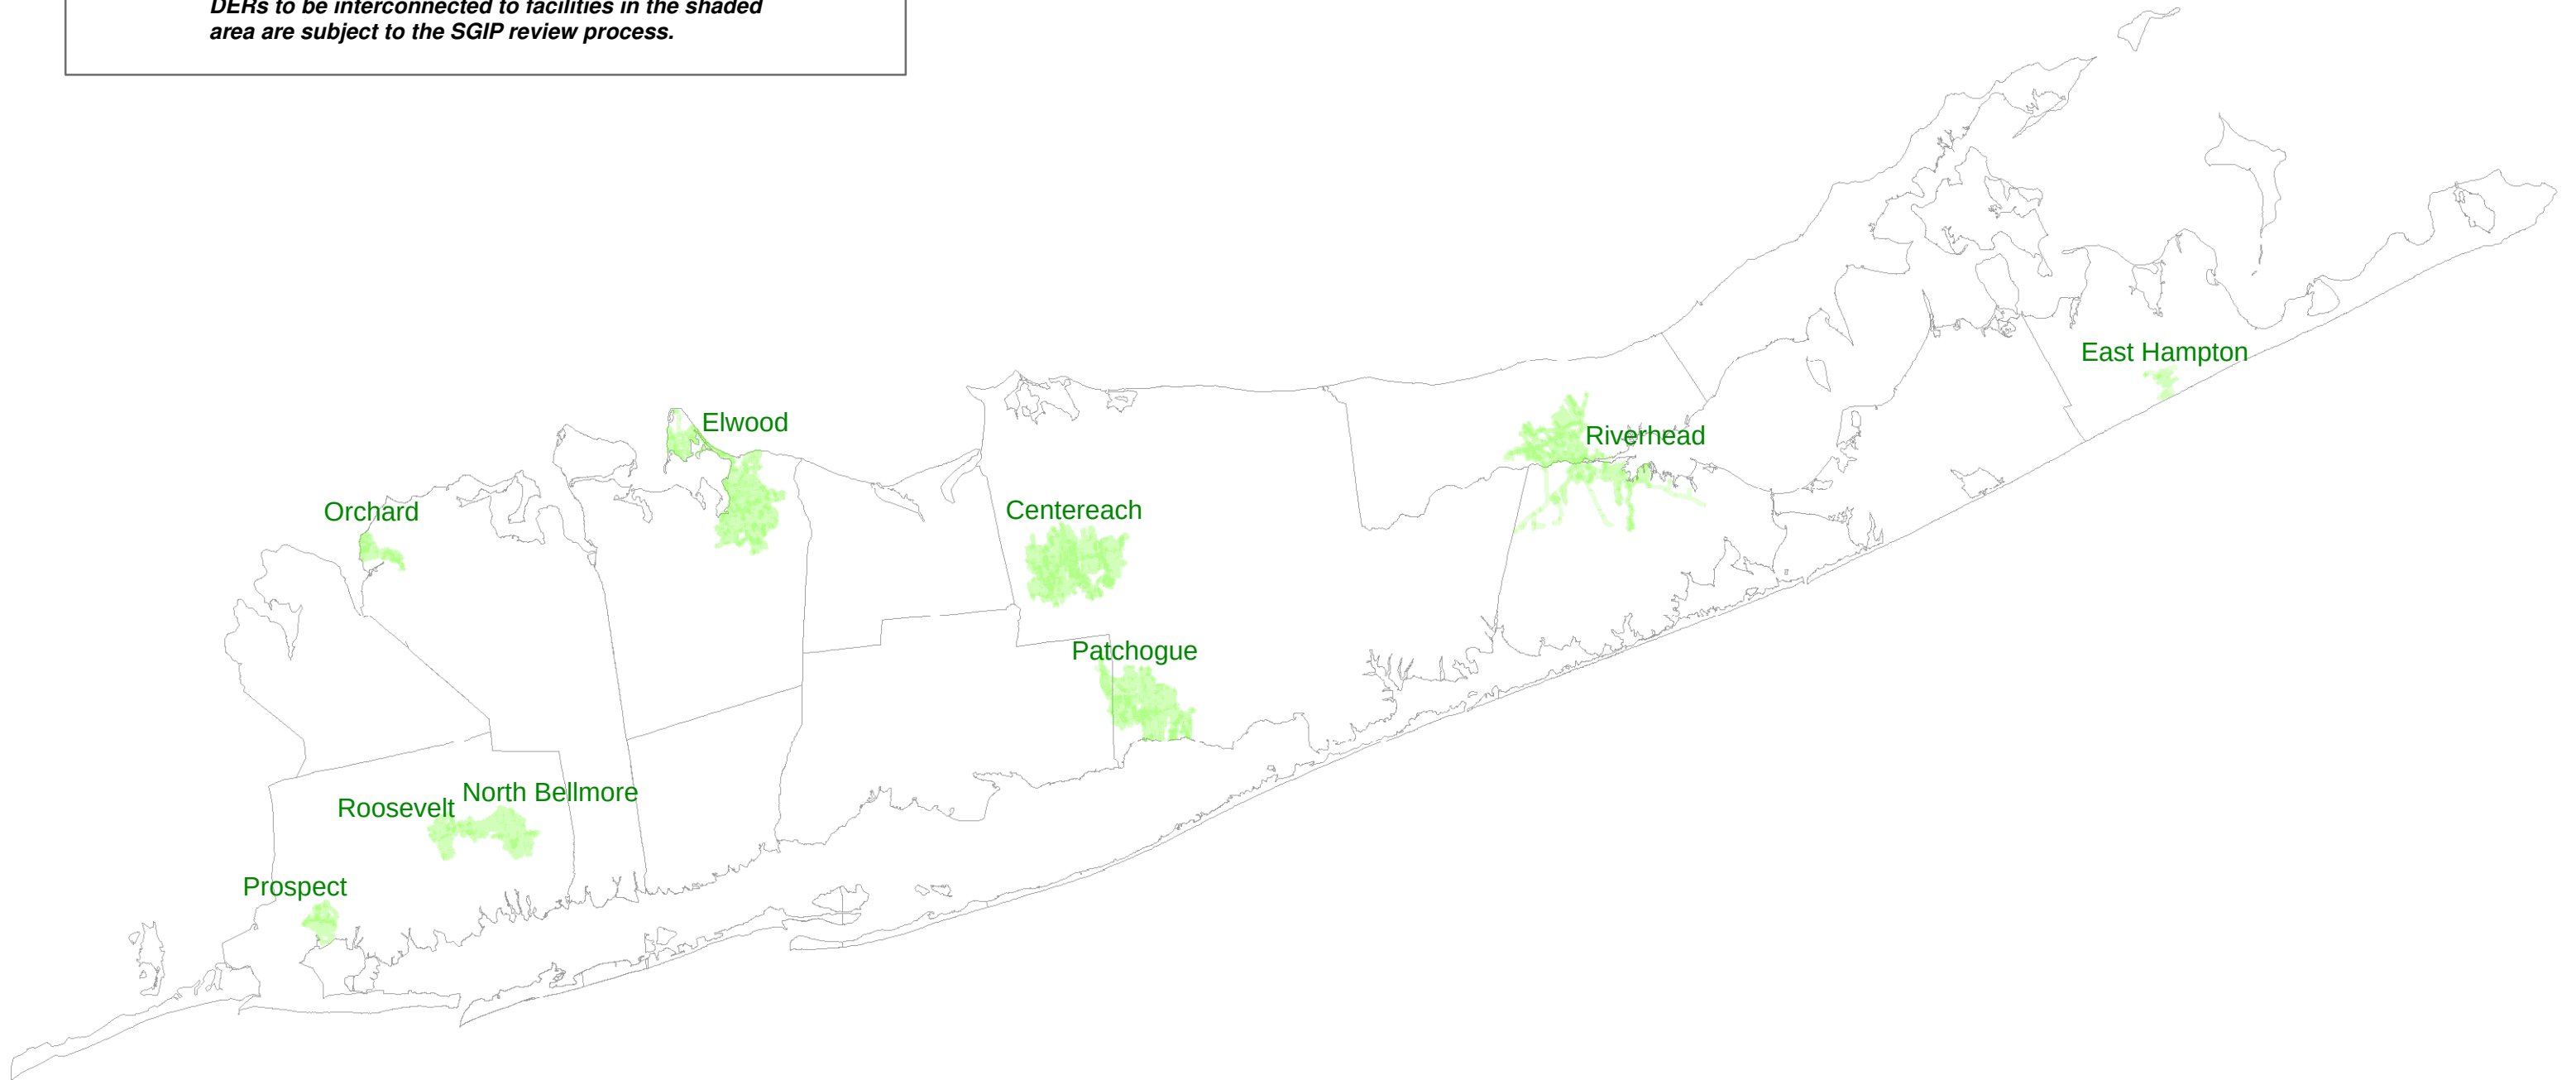

Substation Area	Circuits	Map
Centereach	8E-824, 8E-825, 8E-826, 8E-827, 8E-828, 8E-493, 8E-494	See Page 3
East Hampton	9L-782	See Page 4
Eastport	8T-2P5, 8T-2P6, 8T-6P6, 8T-6P7, 8T-925	See Page 12
Elwood	6RL-765, 6RL-766, 6RL-768, 6RL-955, 6RL-956	See Page 5
North Bellmore	5RK-261, 5RK-262, 5RK-263, 5RK-264	See Page 6
Orchard	4RH-321	See Page 7
Patchogue	8AX-047, 8AX-648, 8AX-649, 8AX-651, 8AX-652, 8AX-653, 8AX-654	See Page 8
Prospect	2QB-545, 2QB-546, 2QB-547, 2QB-548, 2QB-549, 2QB-551	See Page 9

Effective: May 14, 2021

Long Island Power Authority

Valuation of Distributed Energy Resources (VDER) Locational System Relief Value (LSRV) Area Maps

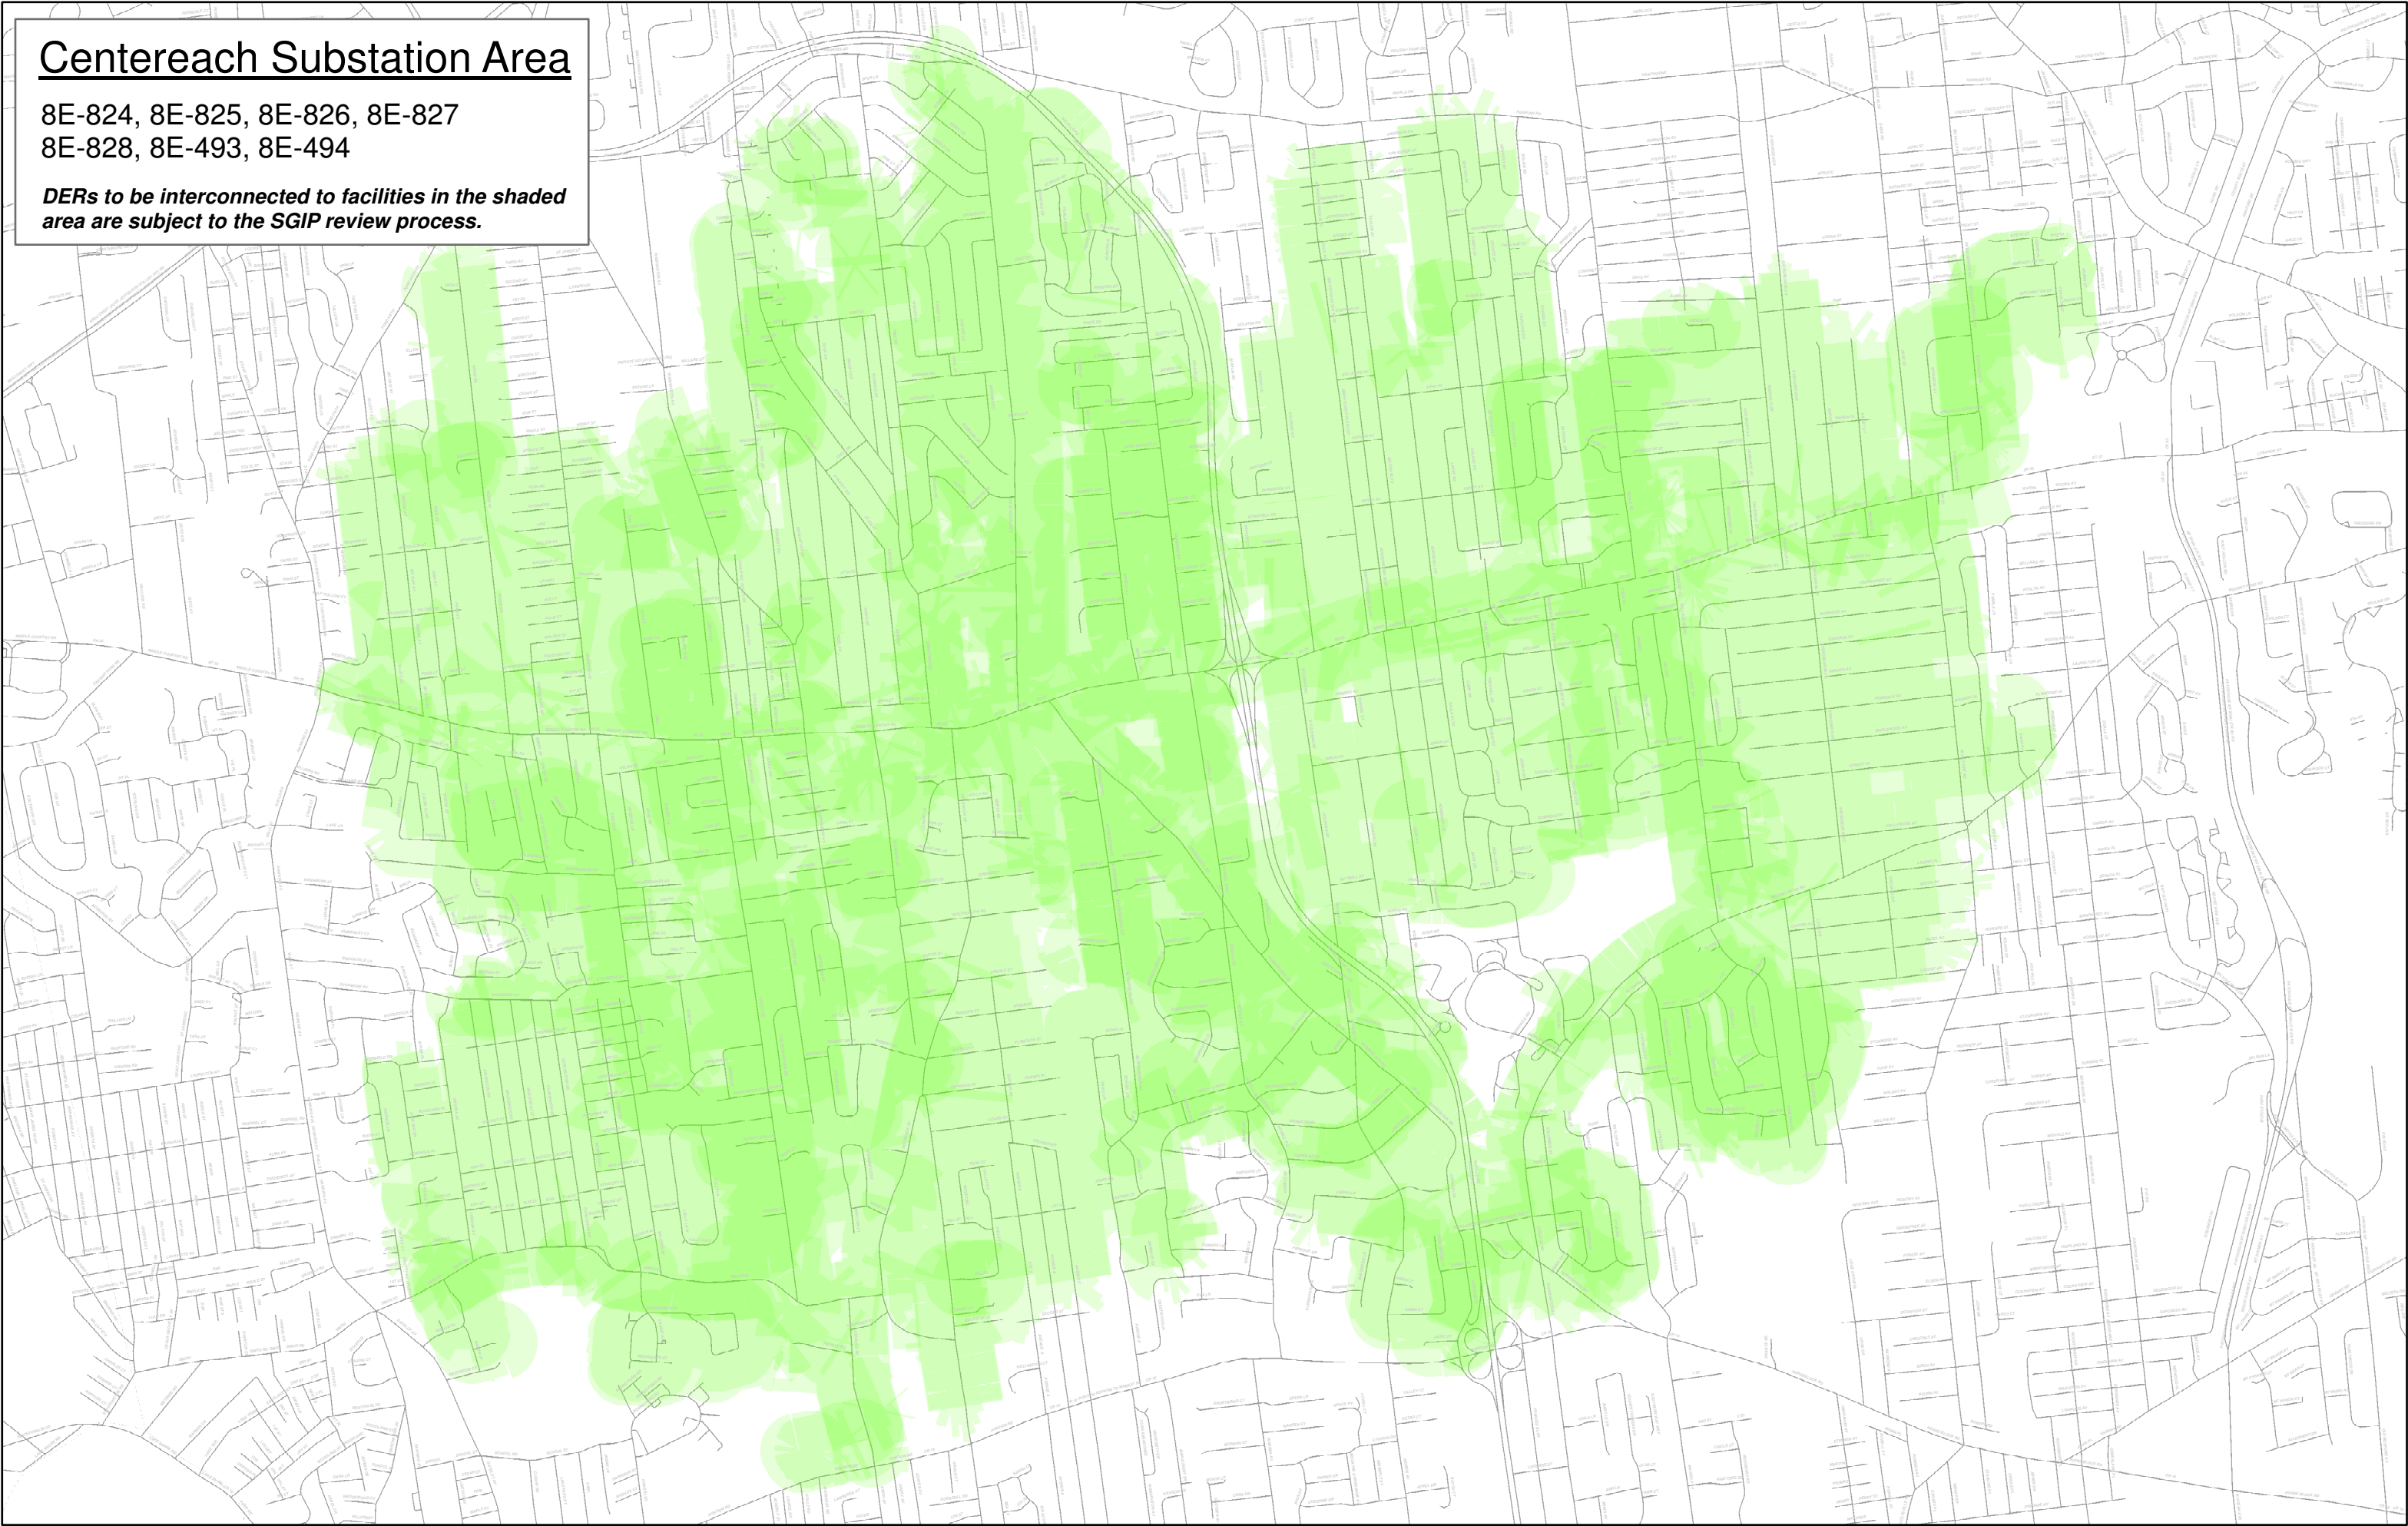

*DERs to be interconnected to facilities in the shaded
area are subject to the SGIP review process.*

Centereach Substation Area

8E-824, 8E-825, 8E-826, 8E-827
8E-828, 8E-493, 8E-494

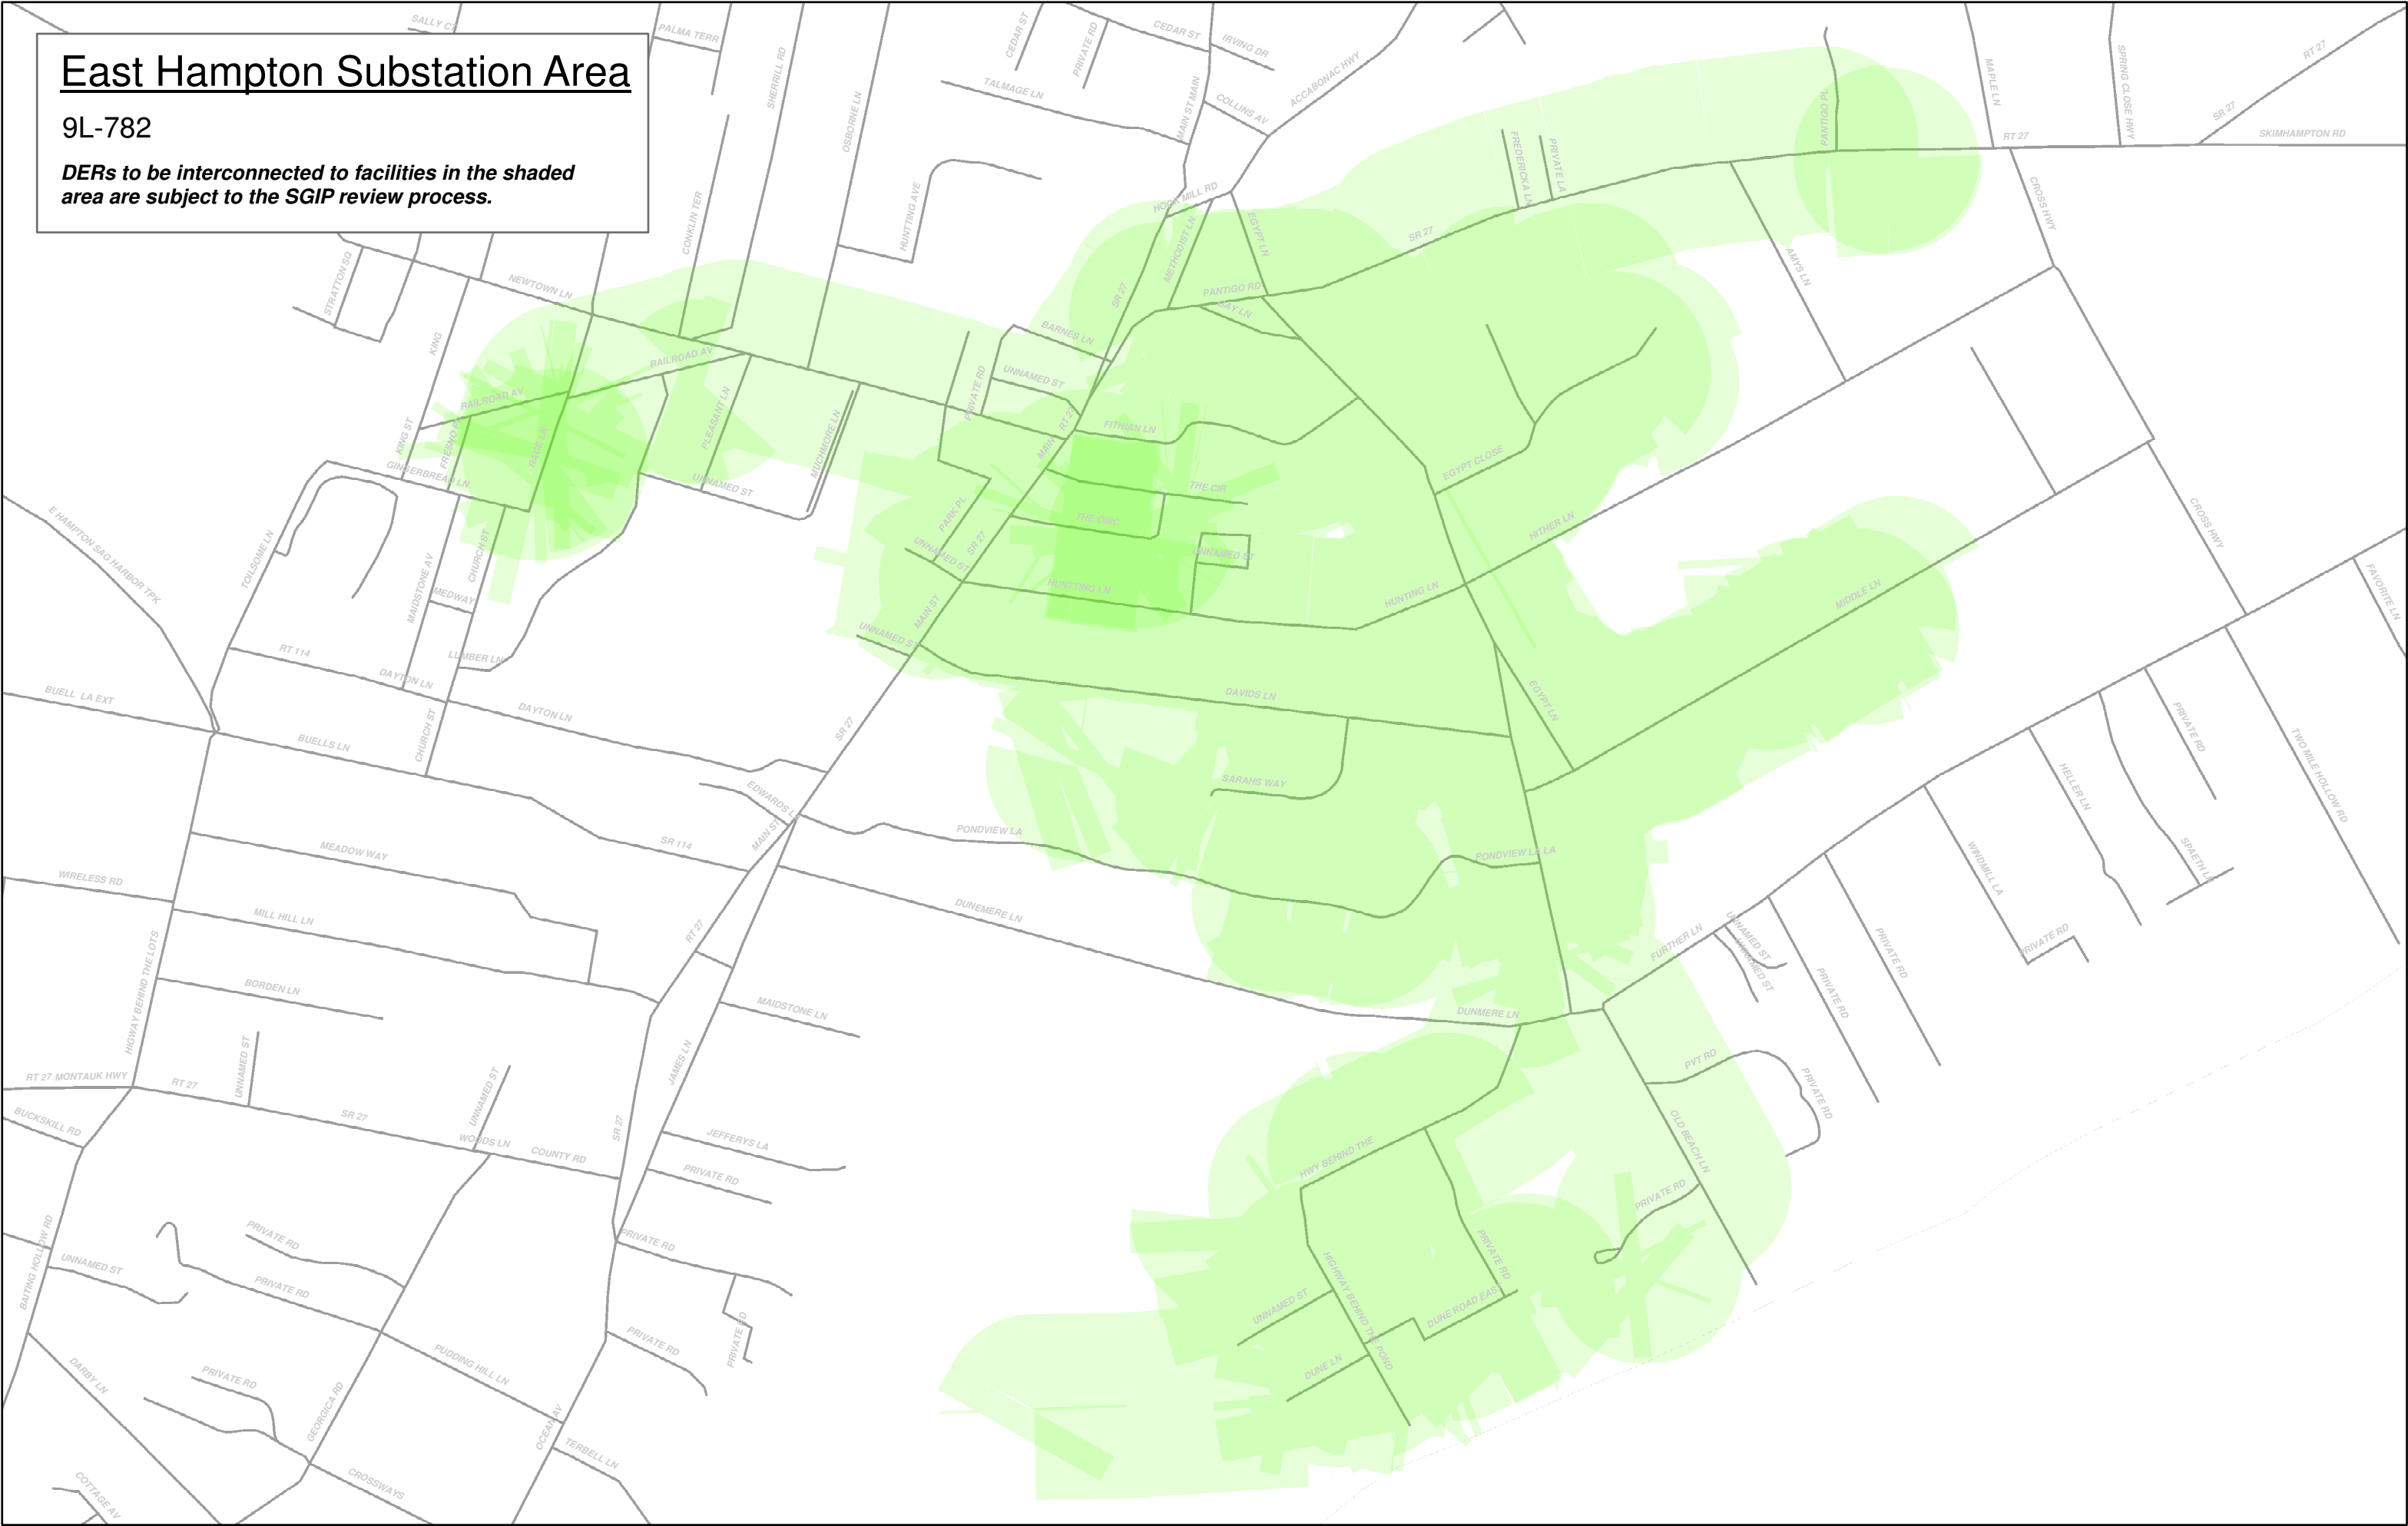

DERs to be interconnected to facilities in the shaded area are subject to the SGIP review process.

East Hampton Substation Area

9L-782

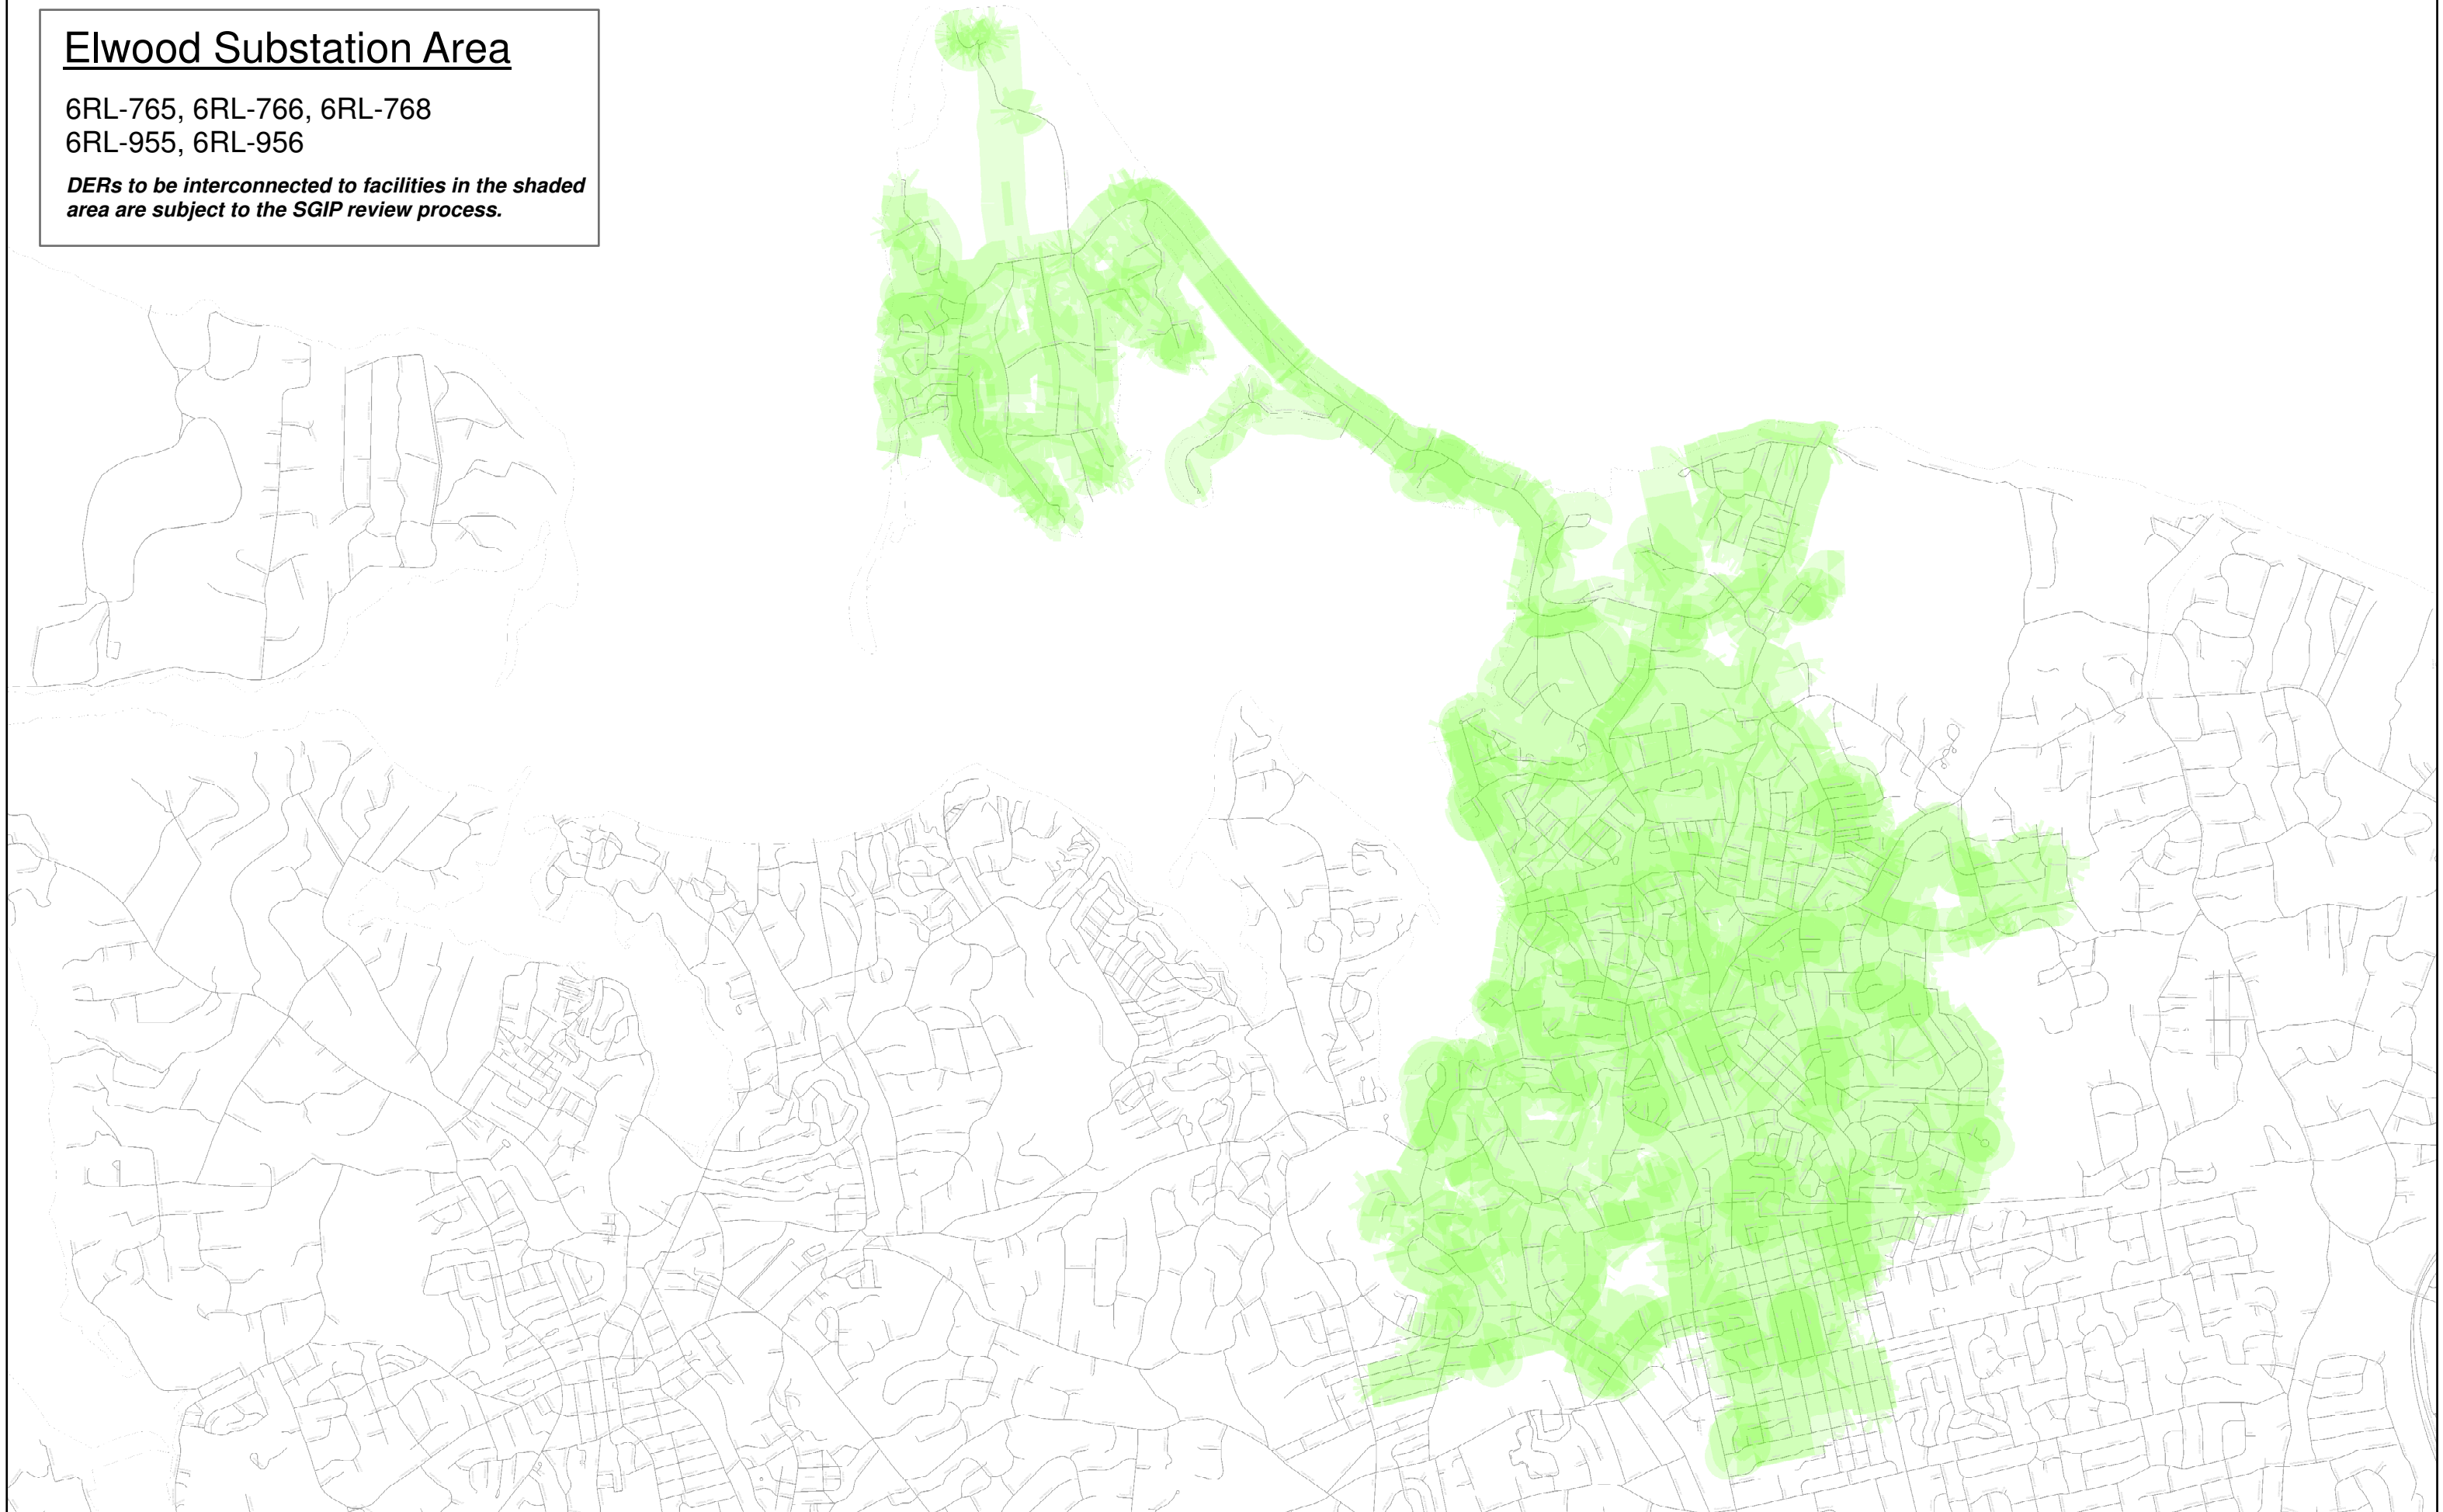

DERs to be interconnected to facilities in the shaded area are subject to the SGIP review process.

Elwood Substation Area

6RL-765, 6RL-766, 6RL-768
6RL-955, 6RL-956

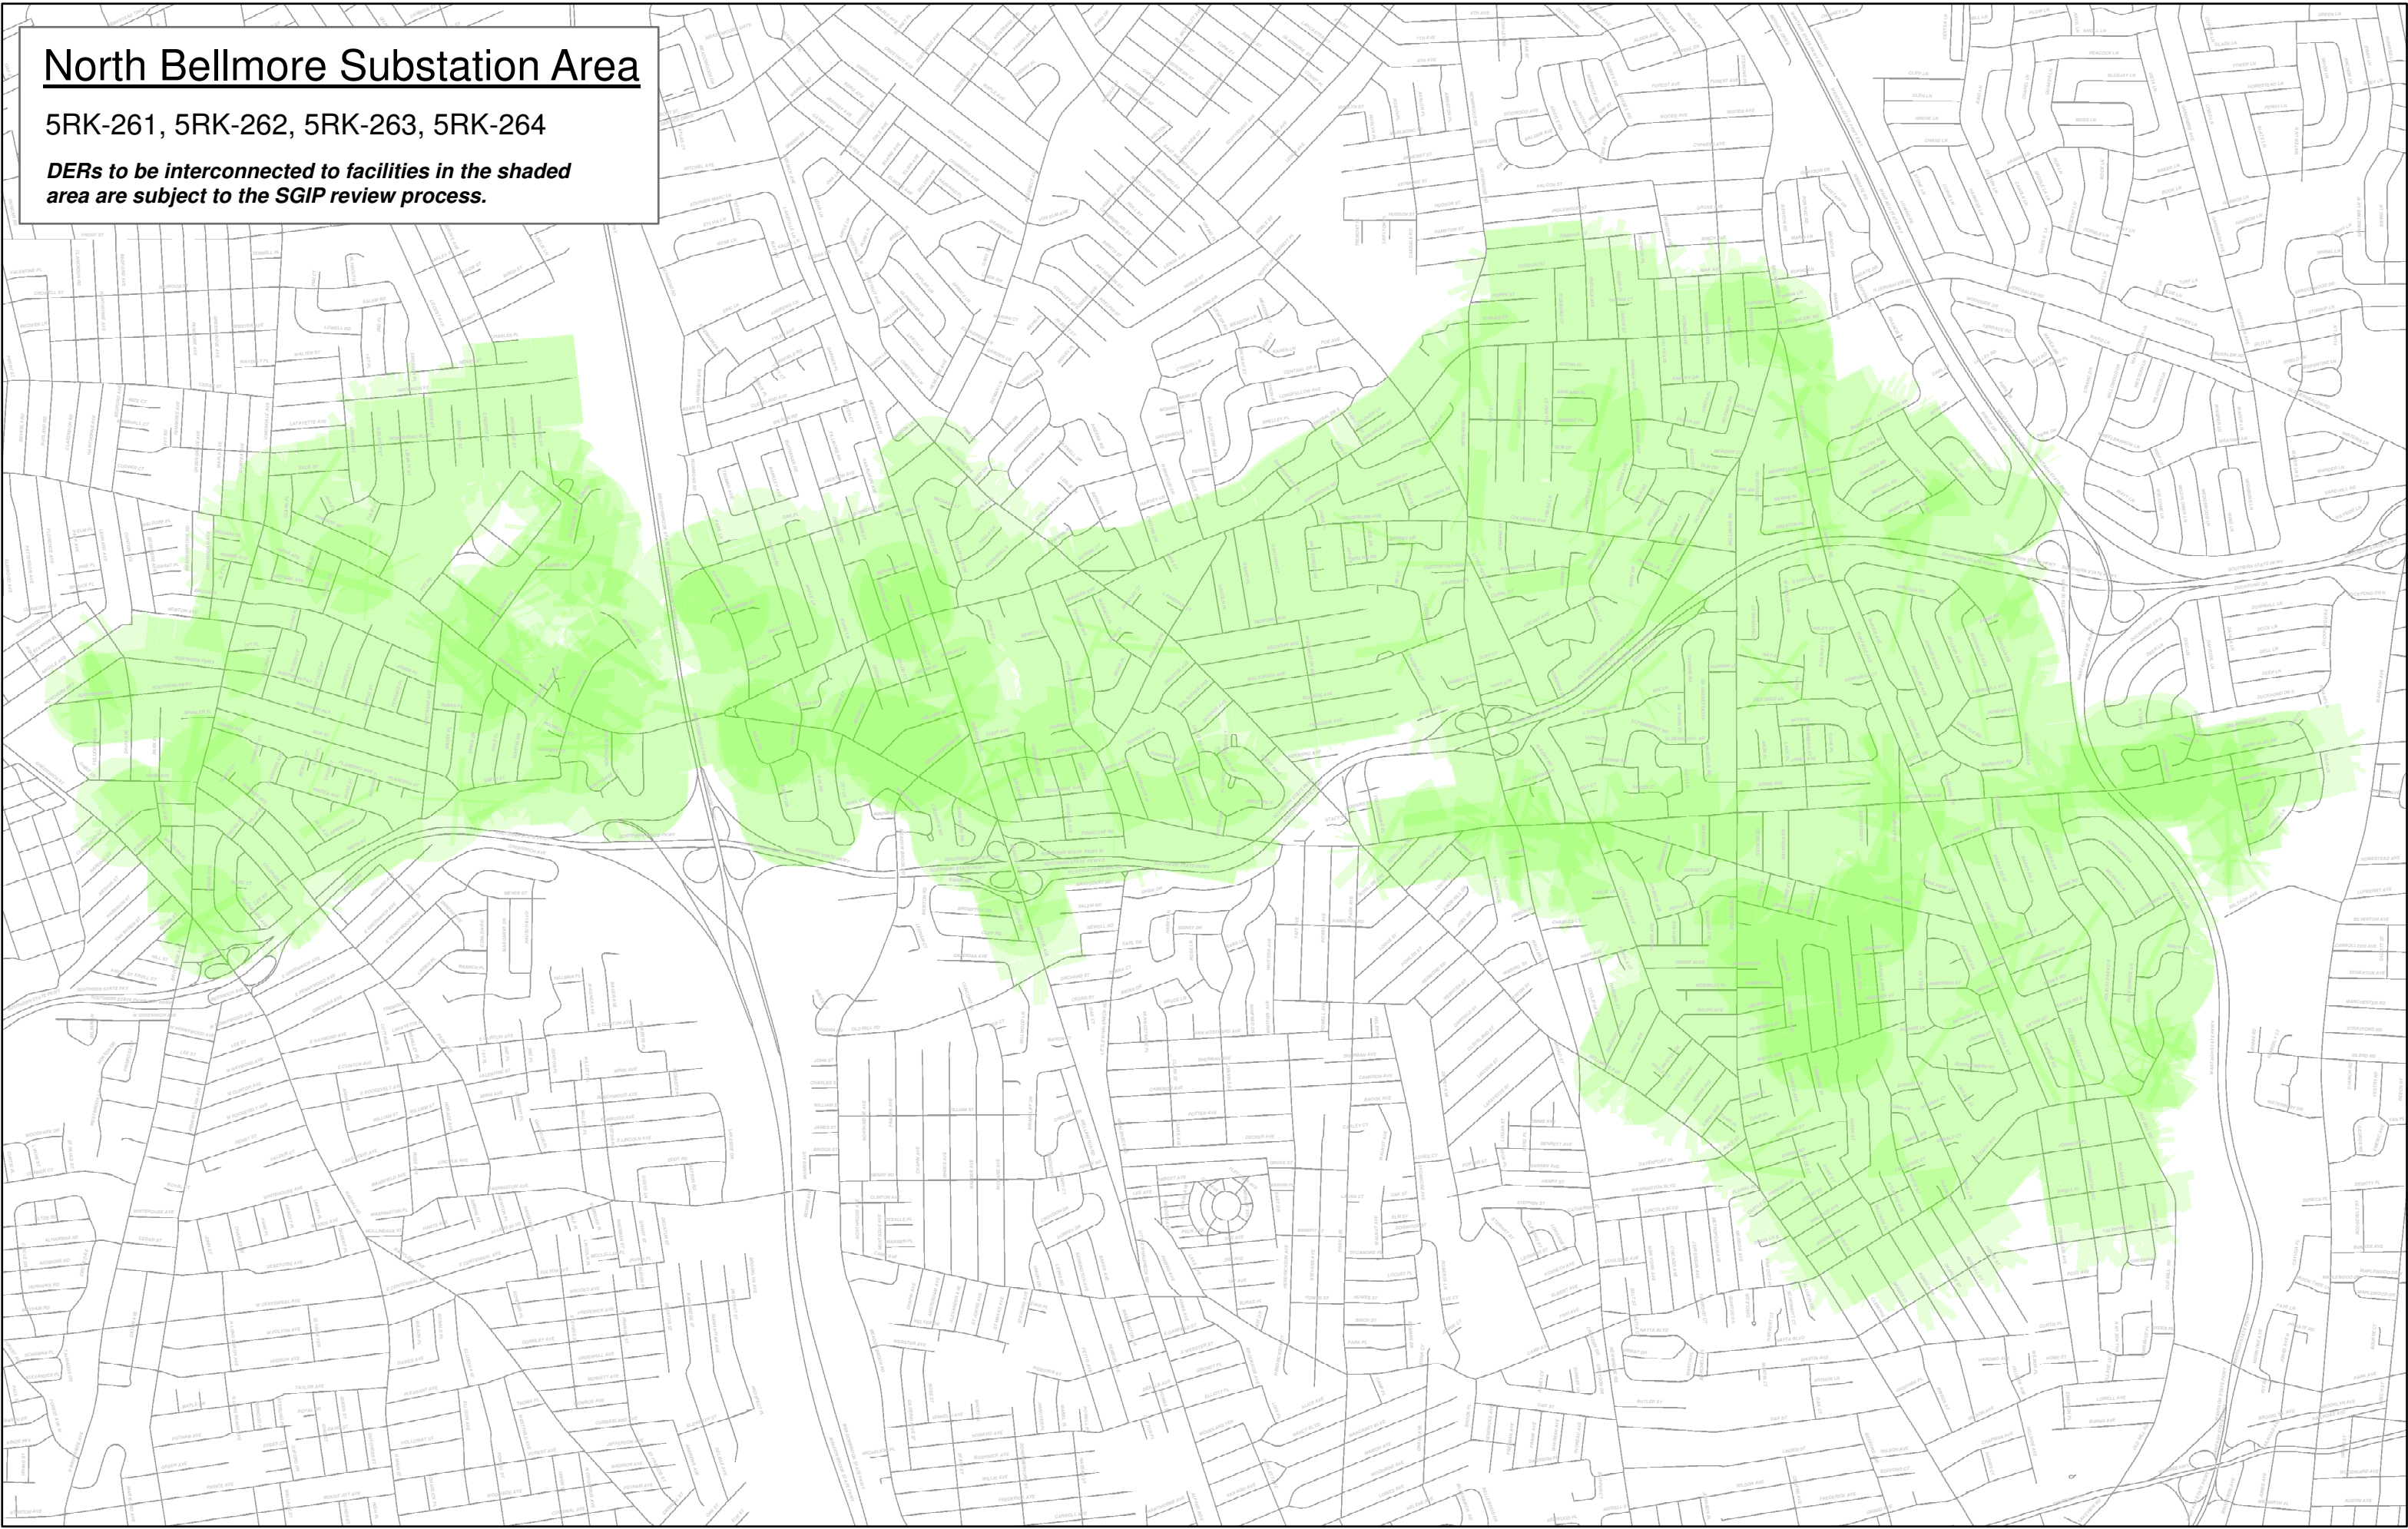

DERs to be interconnected to facilities in the shaded area are subject to the SGIP review process.

North Bellmore Substation Area

5RK-261, 5RK-262, 5RK-263, 5RK-264

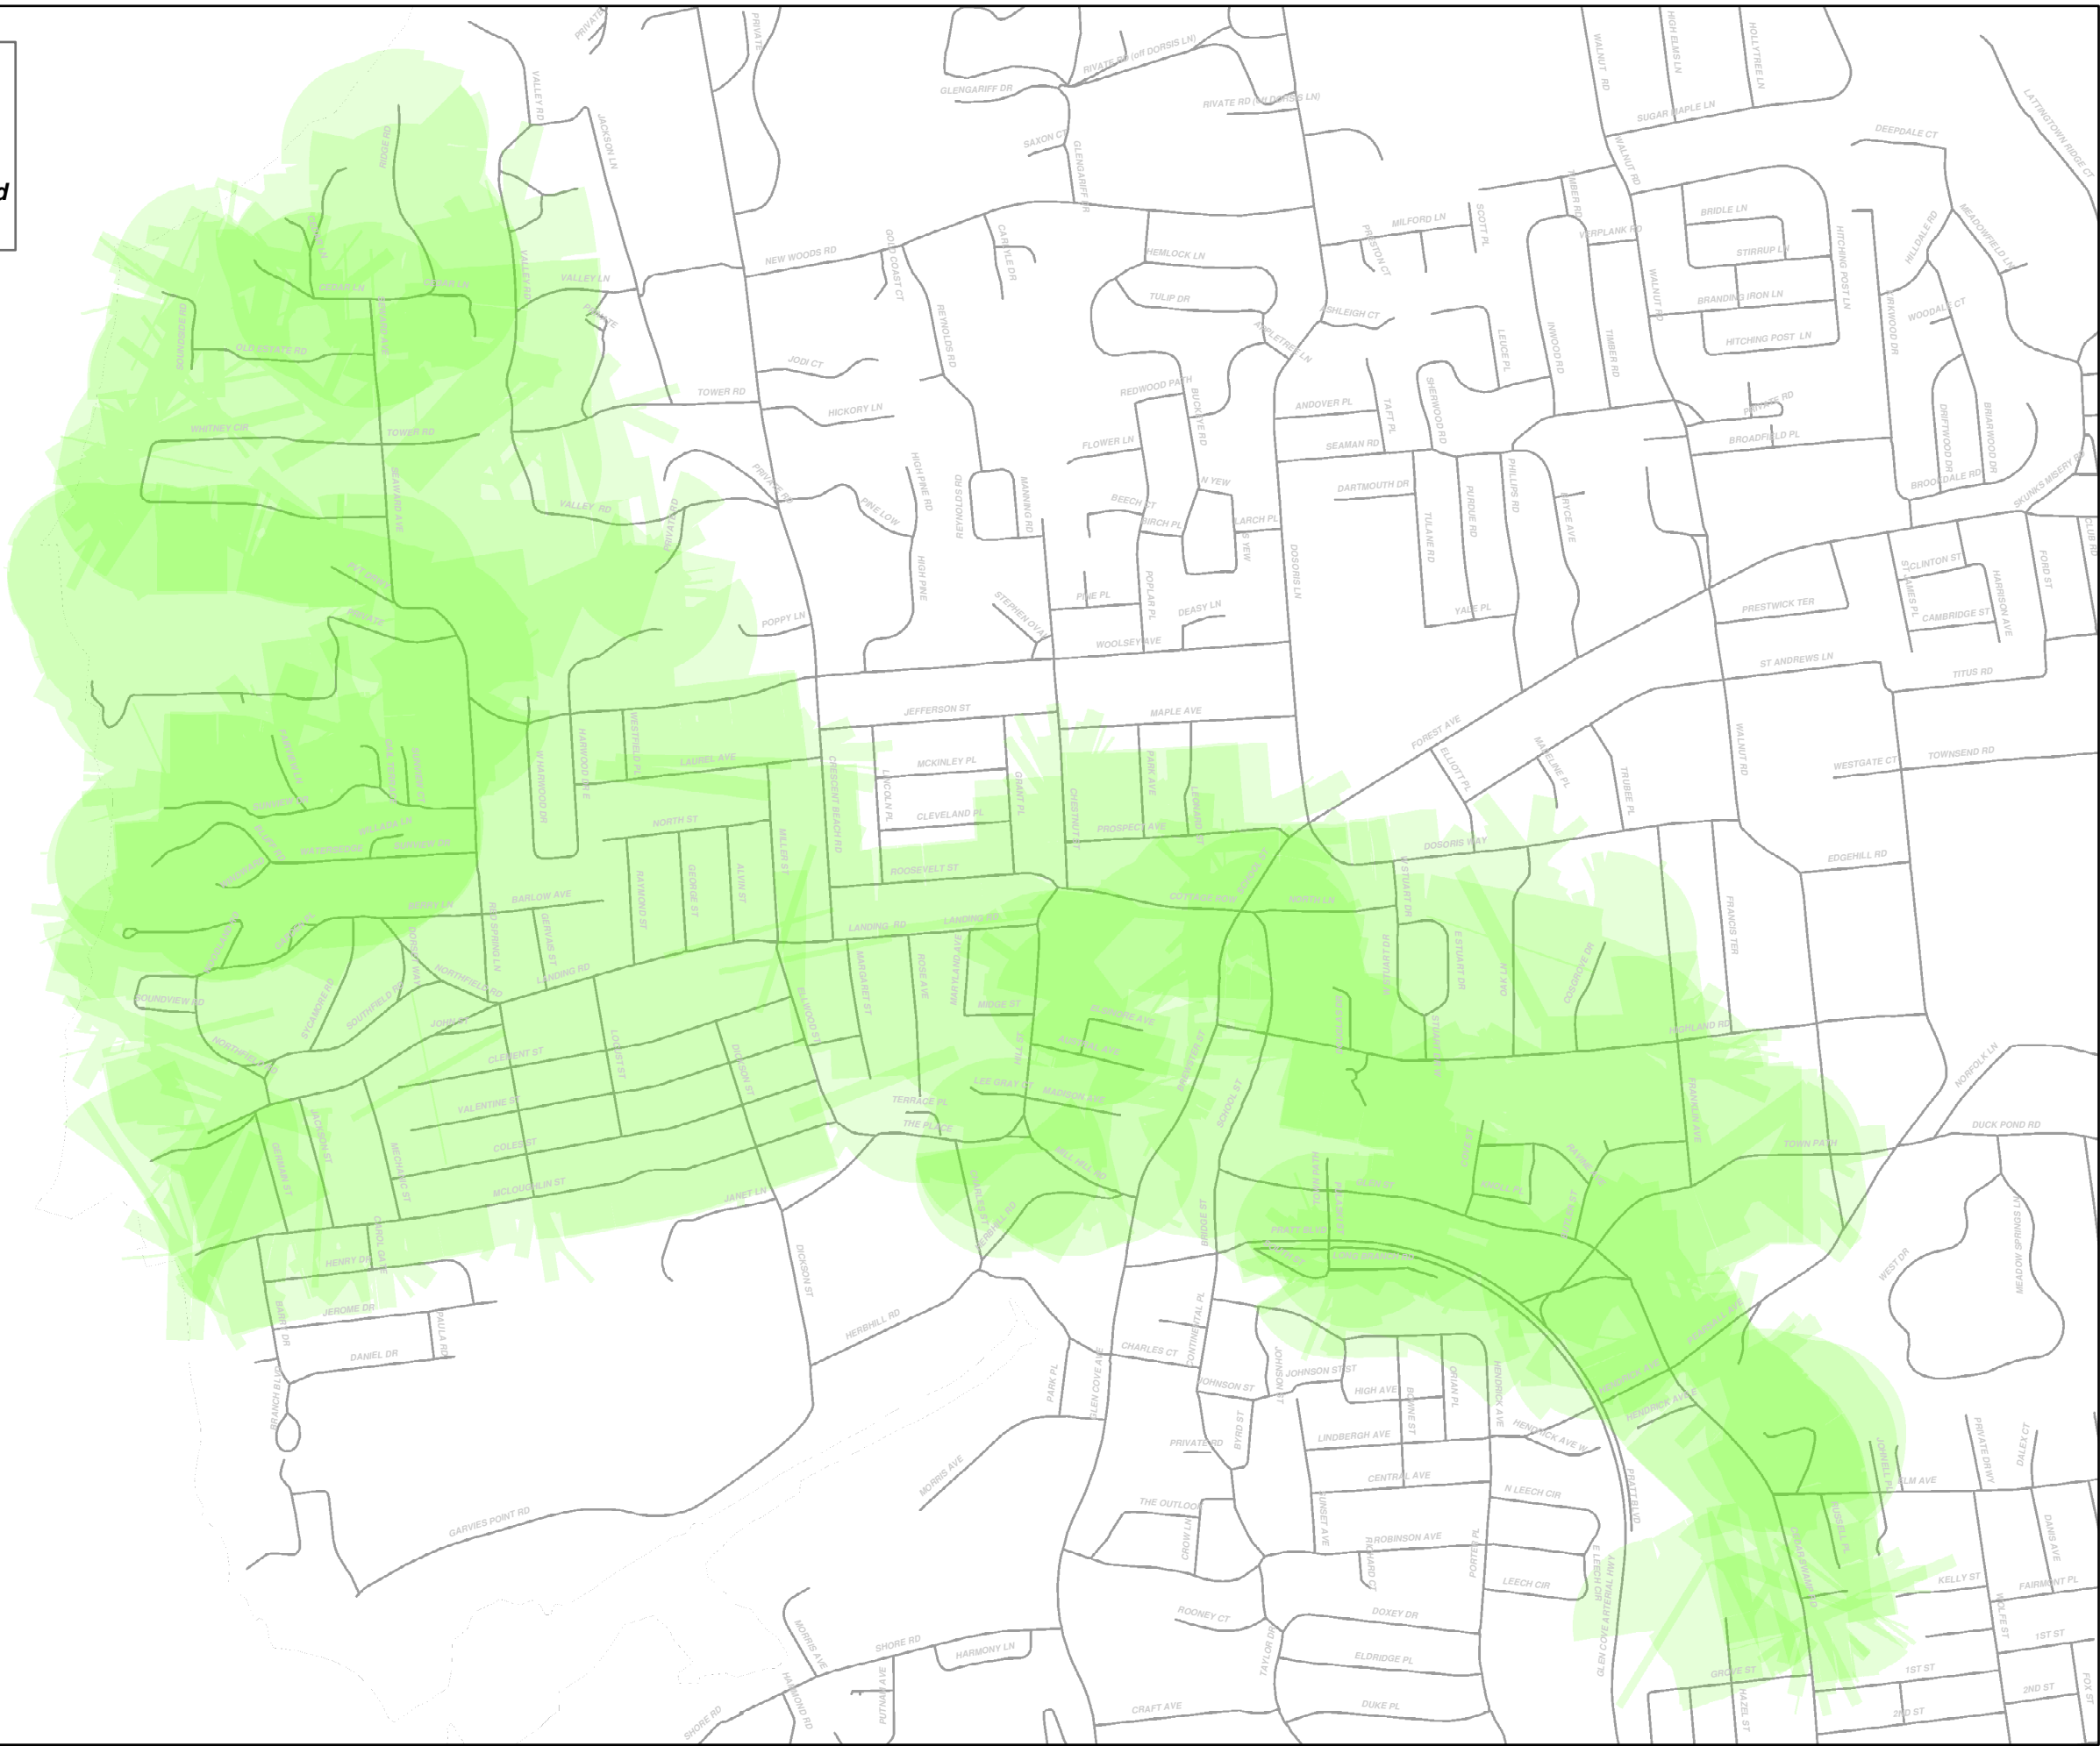

DERs to be interconnected to facilities in the shaded area are subject to the SGIP review process.

Orchard Substation Area

4RH-321

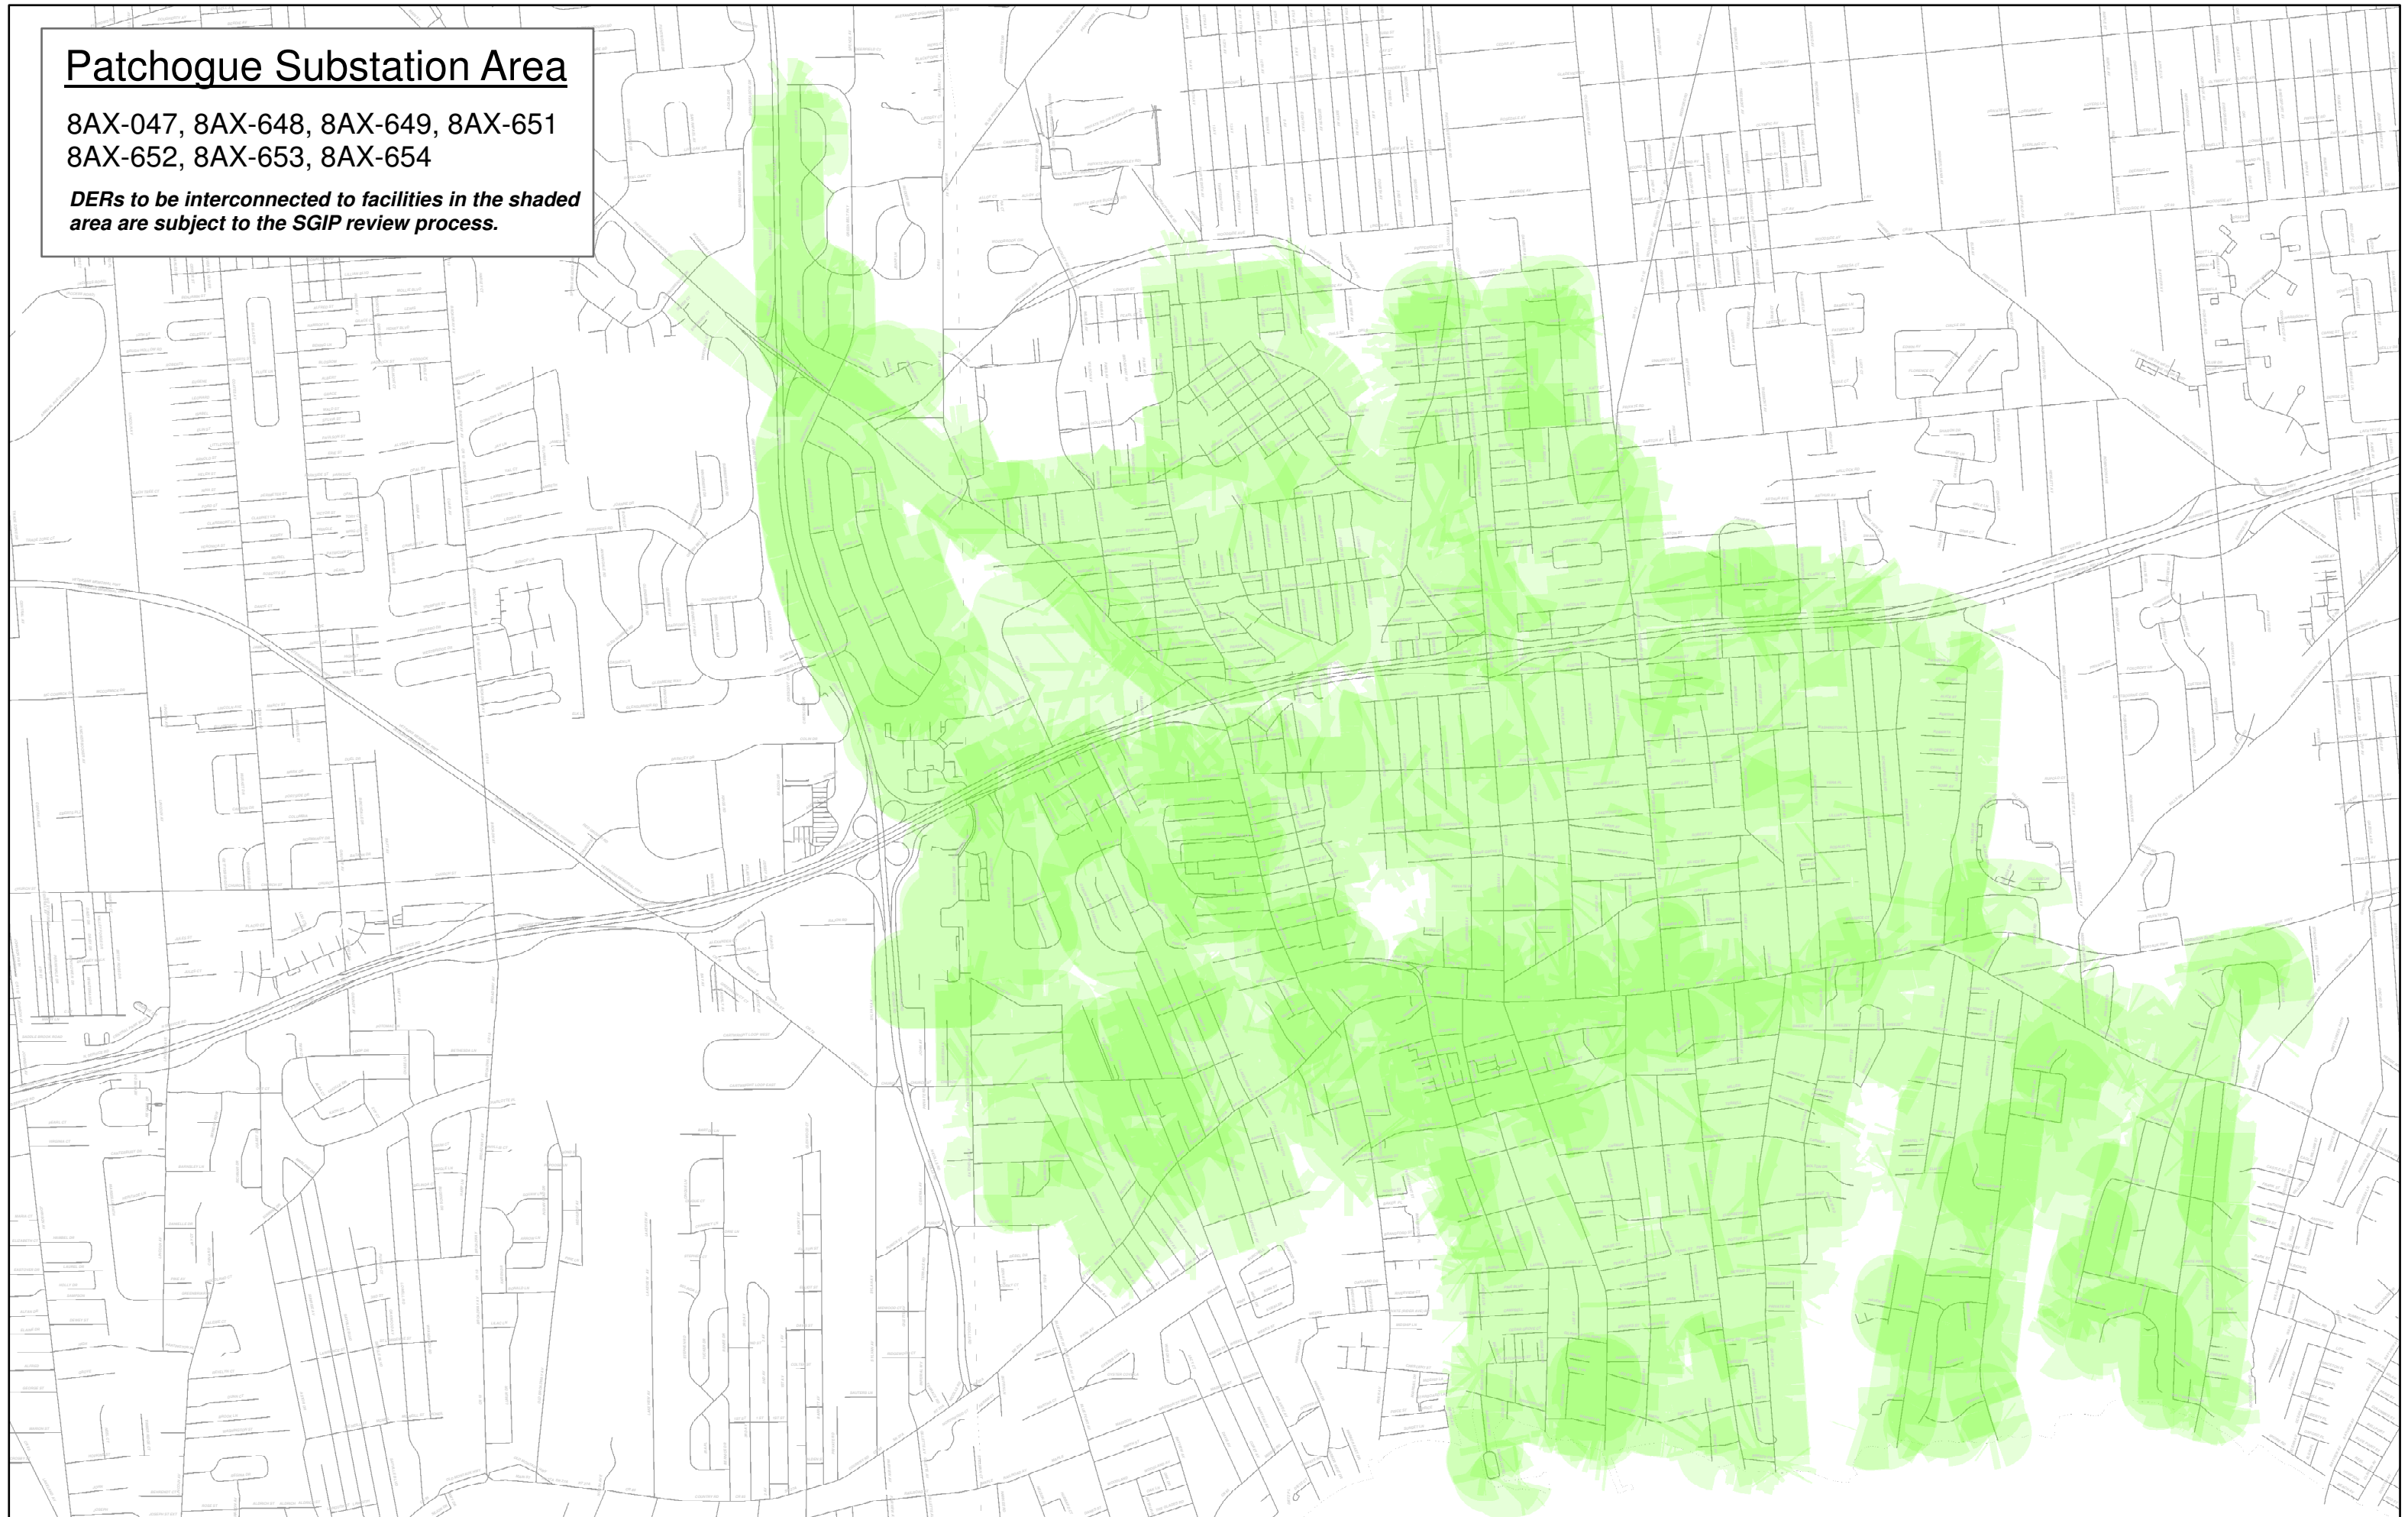

DERs to be interconnected to facilities in the shaded area are subject to the SGIP review process.

Patchogue Substation Area

8AX-047, 8AX-648, 8AX-649, 8AX-651
8AX-652, 8AX-653, 8AX-654

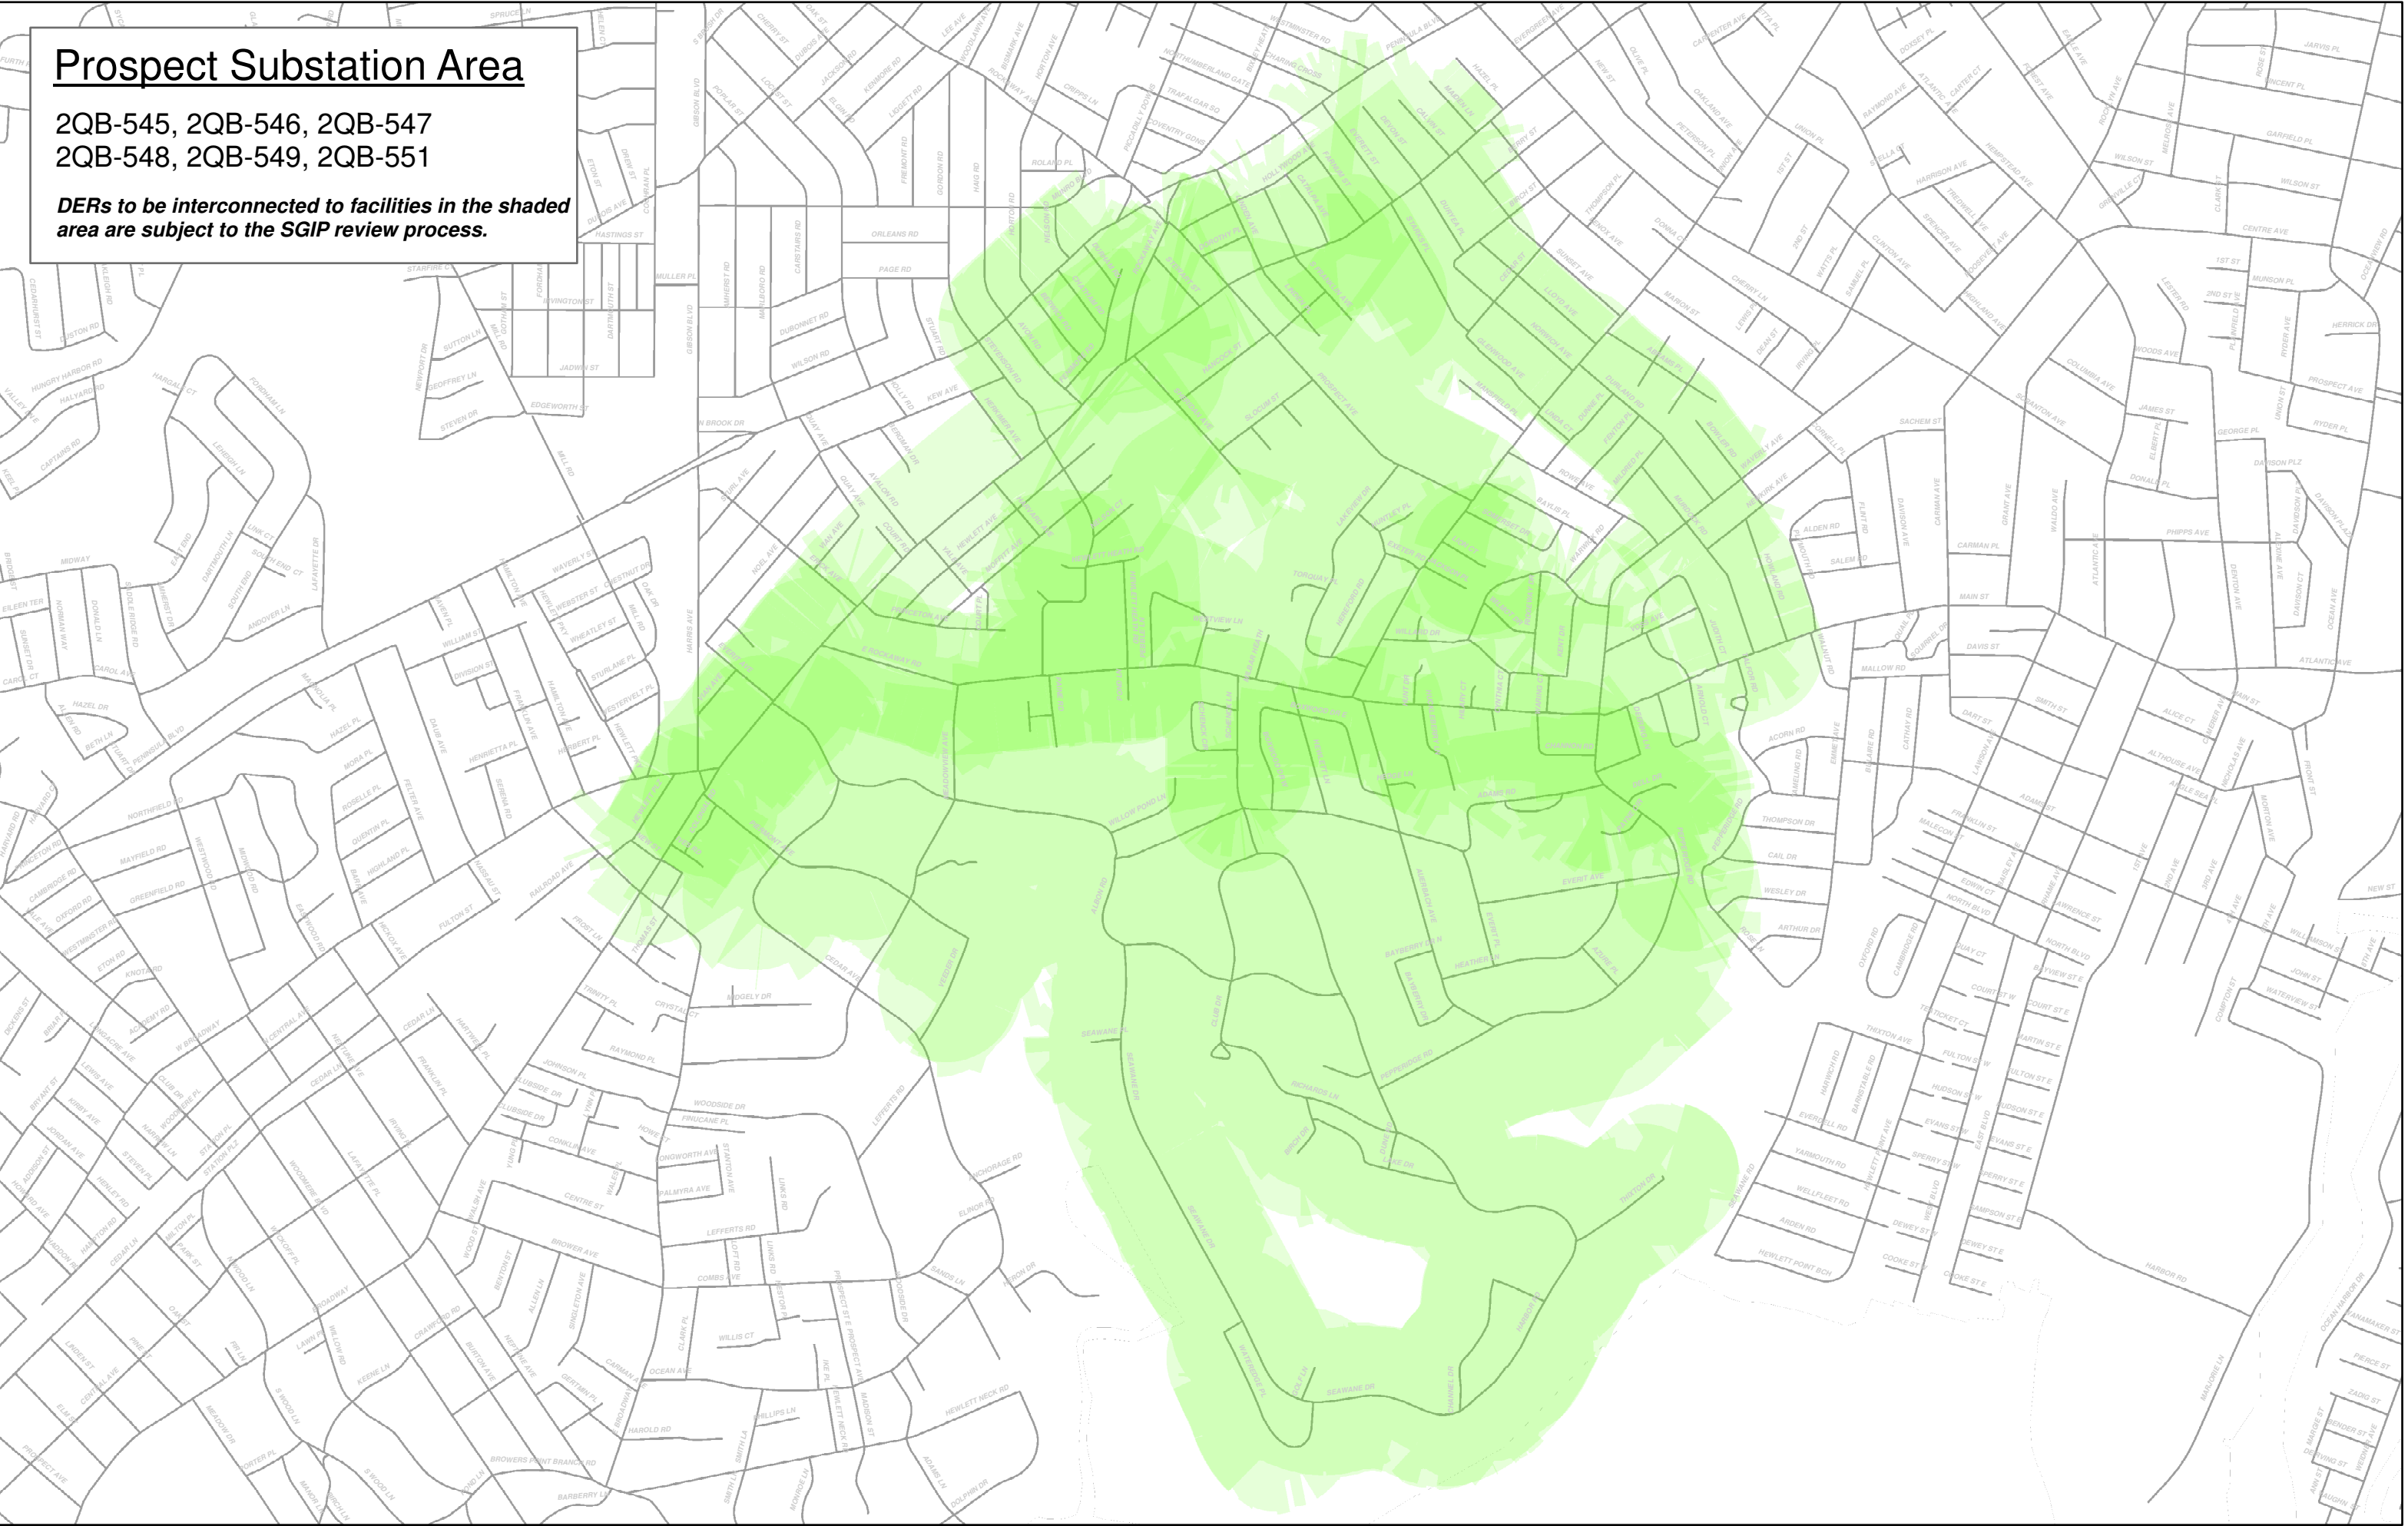

DERs to be interconnected to facilities in the shaded area are subject to the SGIP review process.

Prospect Substation Area

2QB-545, 2QB-546, 2QB-547
2QB-548, 2QB-549, 2QB-551

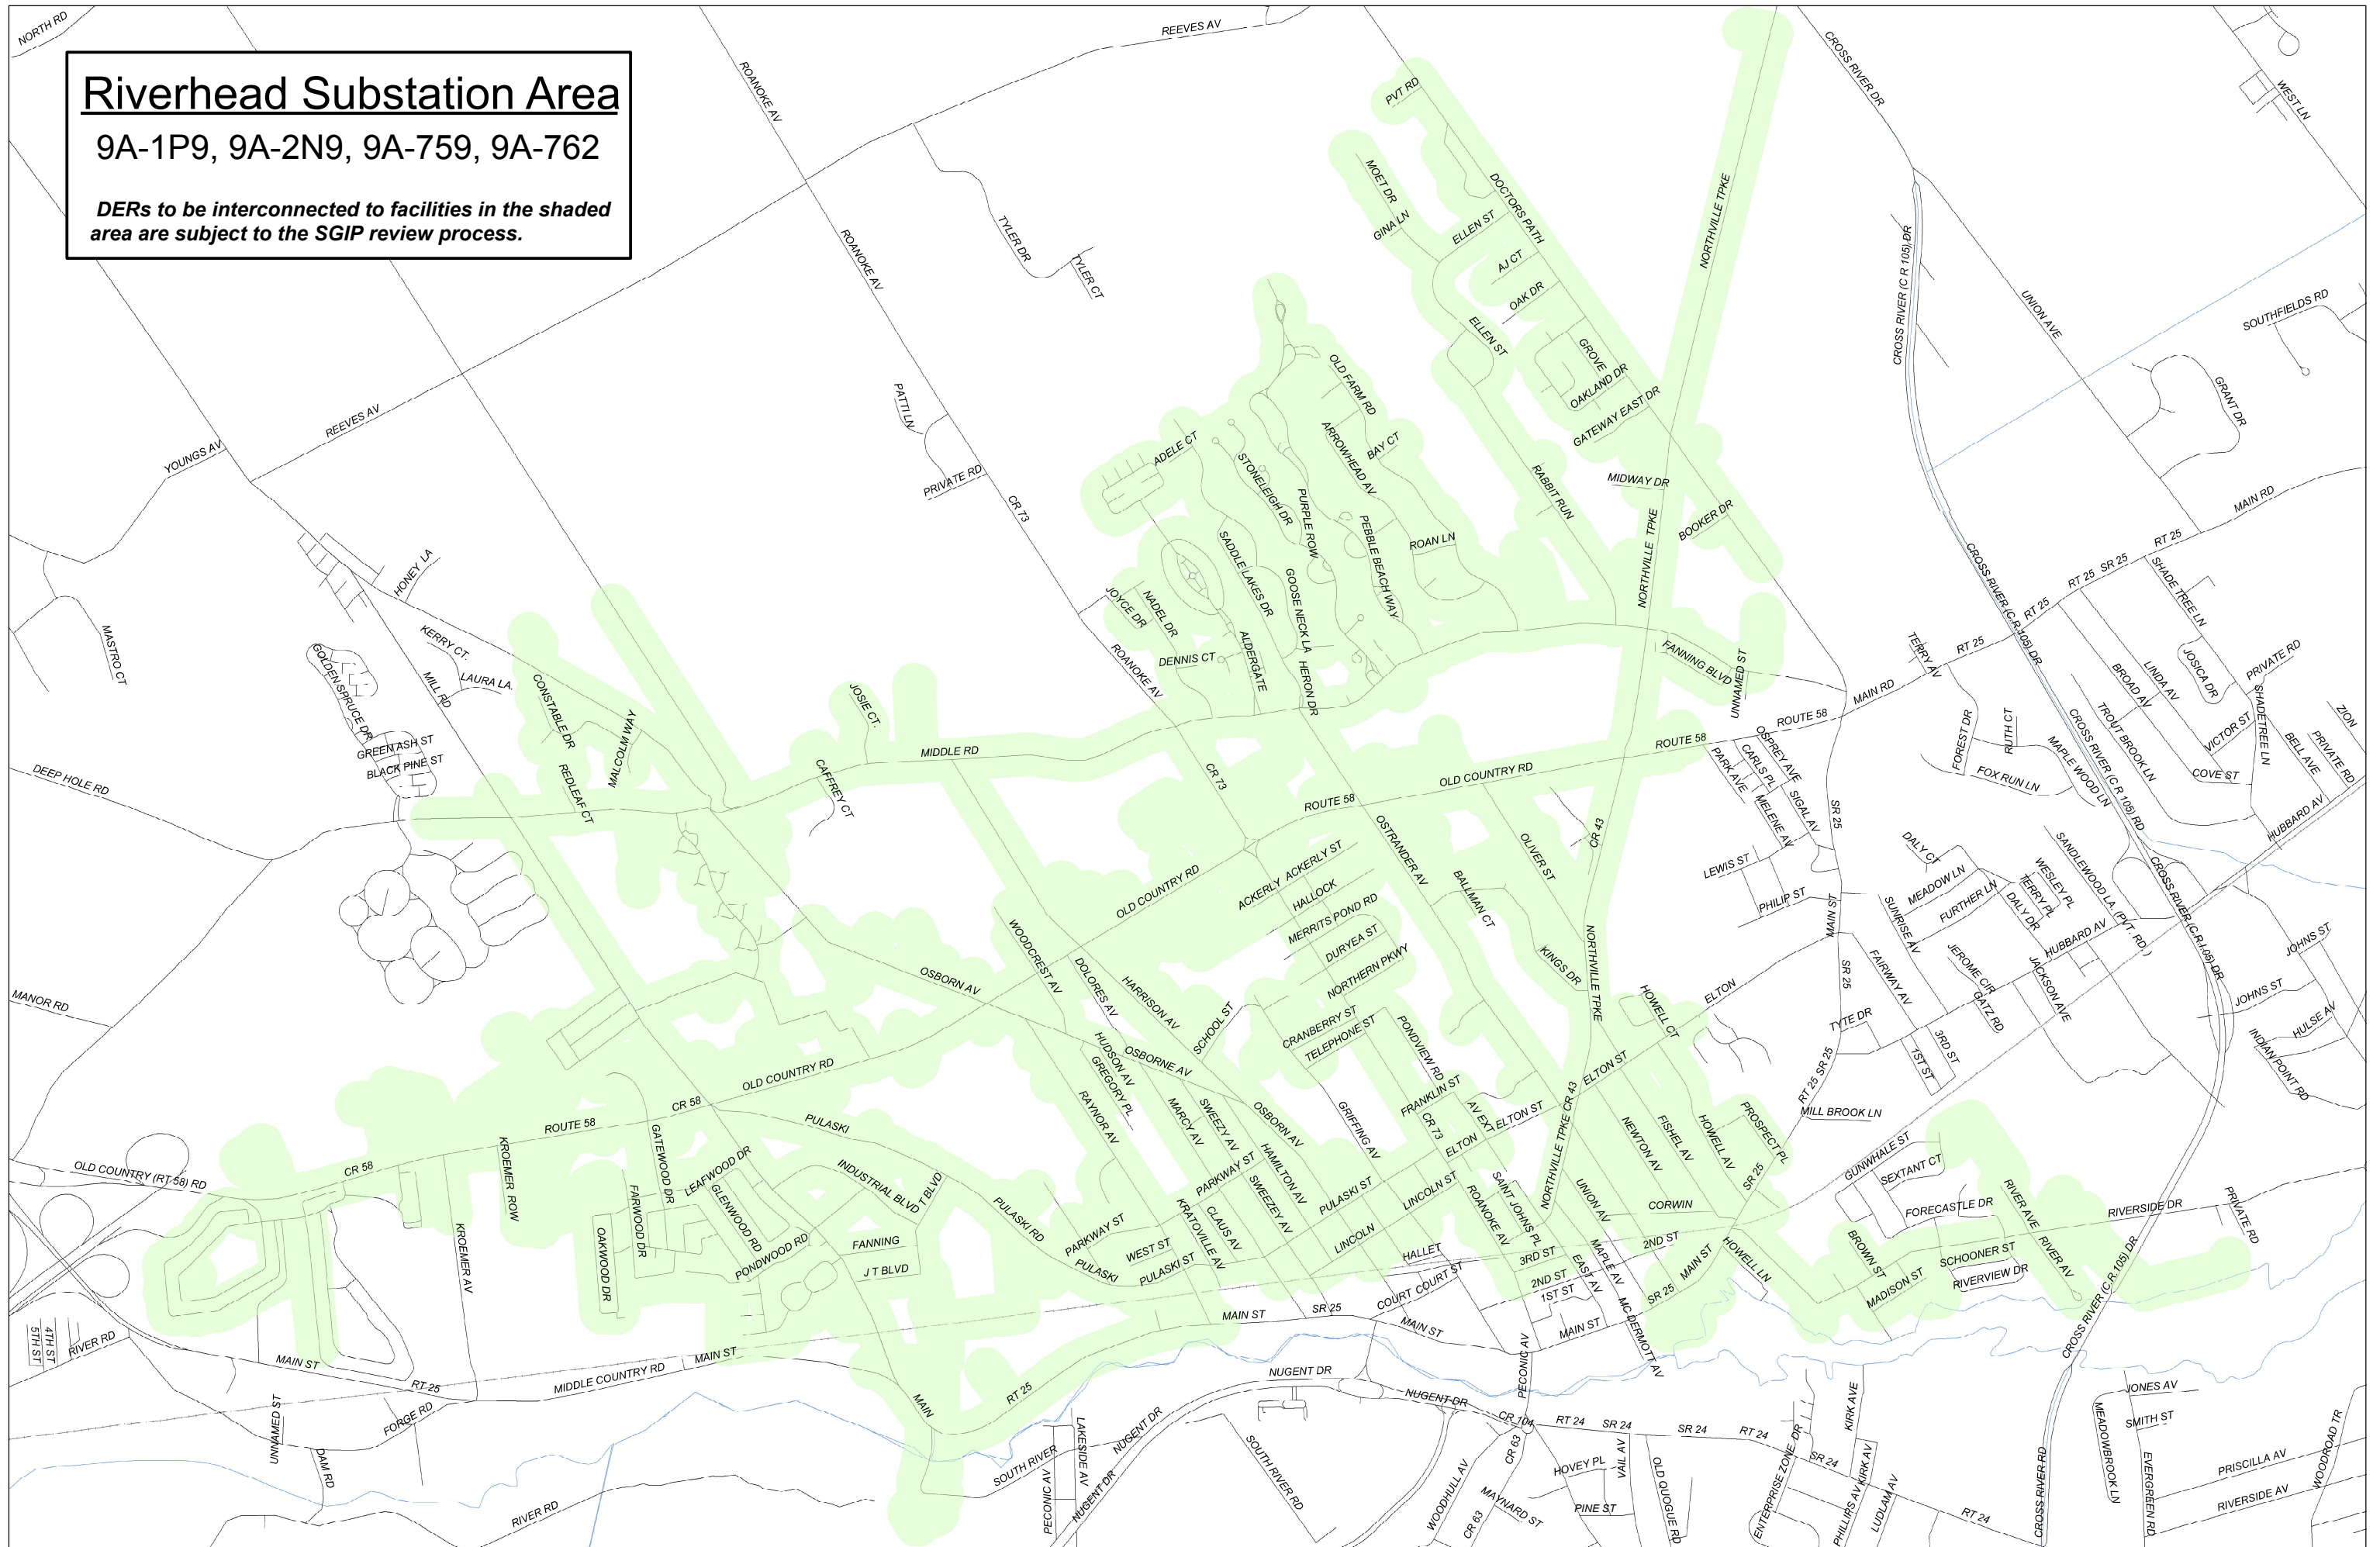

DERs to be interconnected to facilities in the shaded area are subject to the SGIP review process.

Riverhead Substation Area

9A-1P9, 9A-2N9, 9A-759, 9A-762

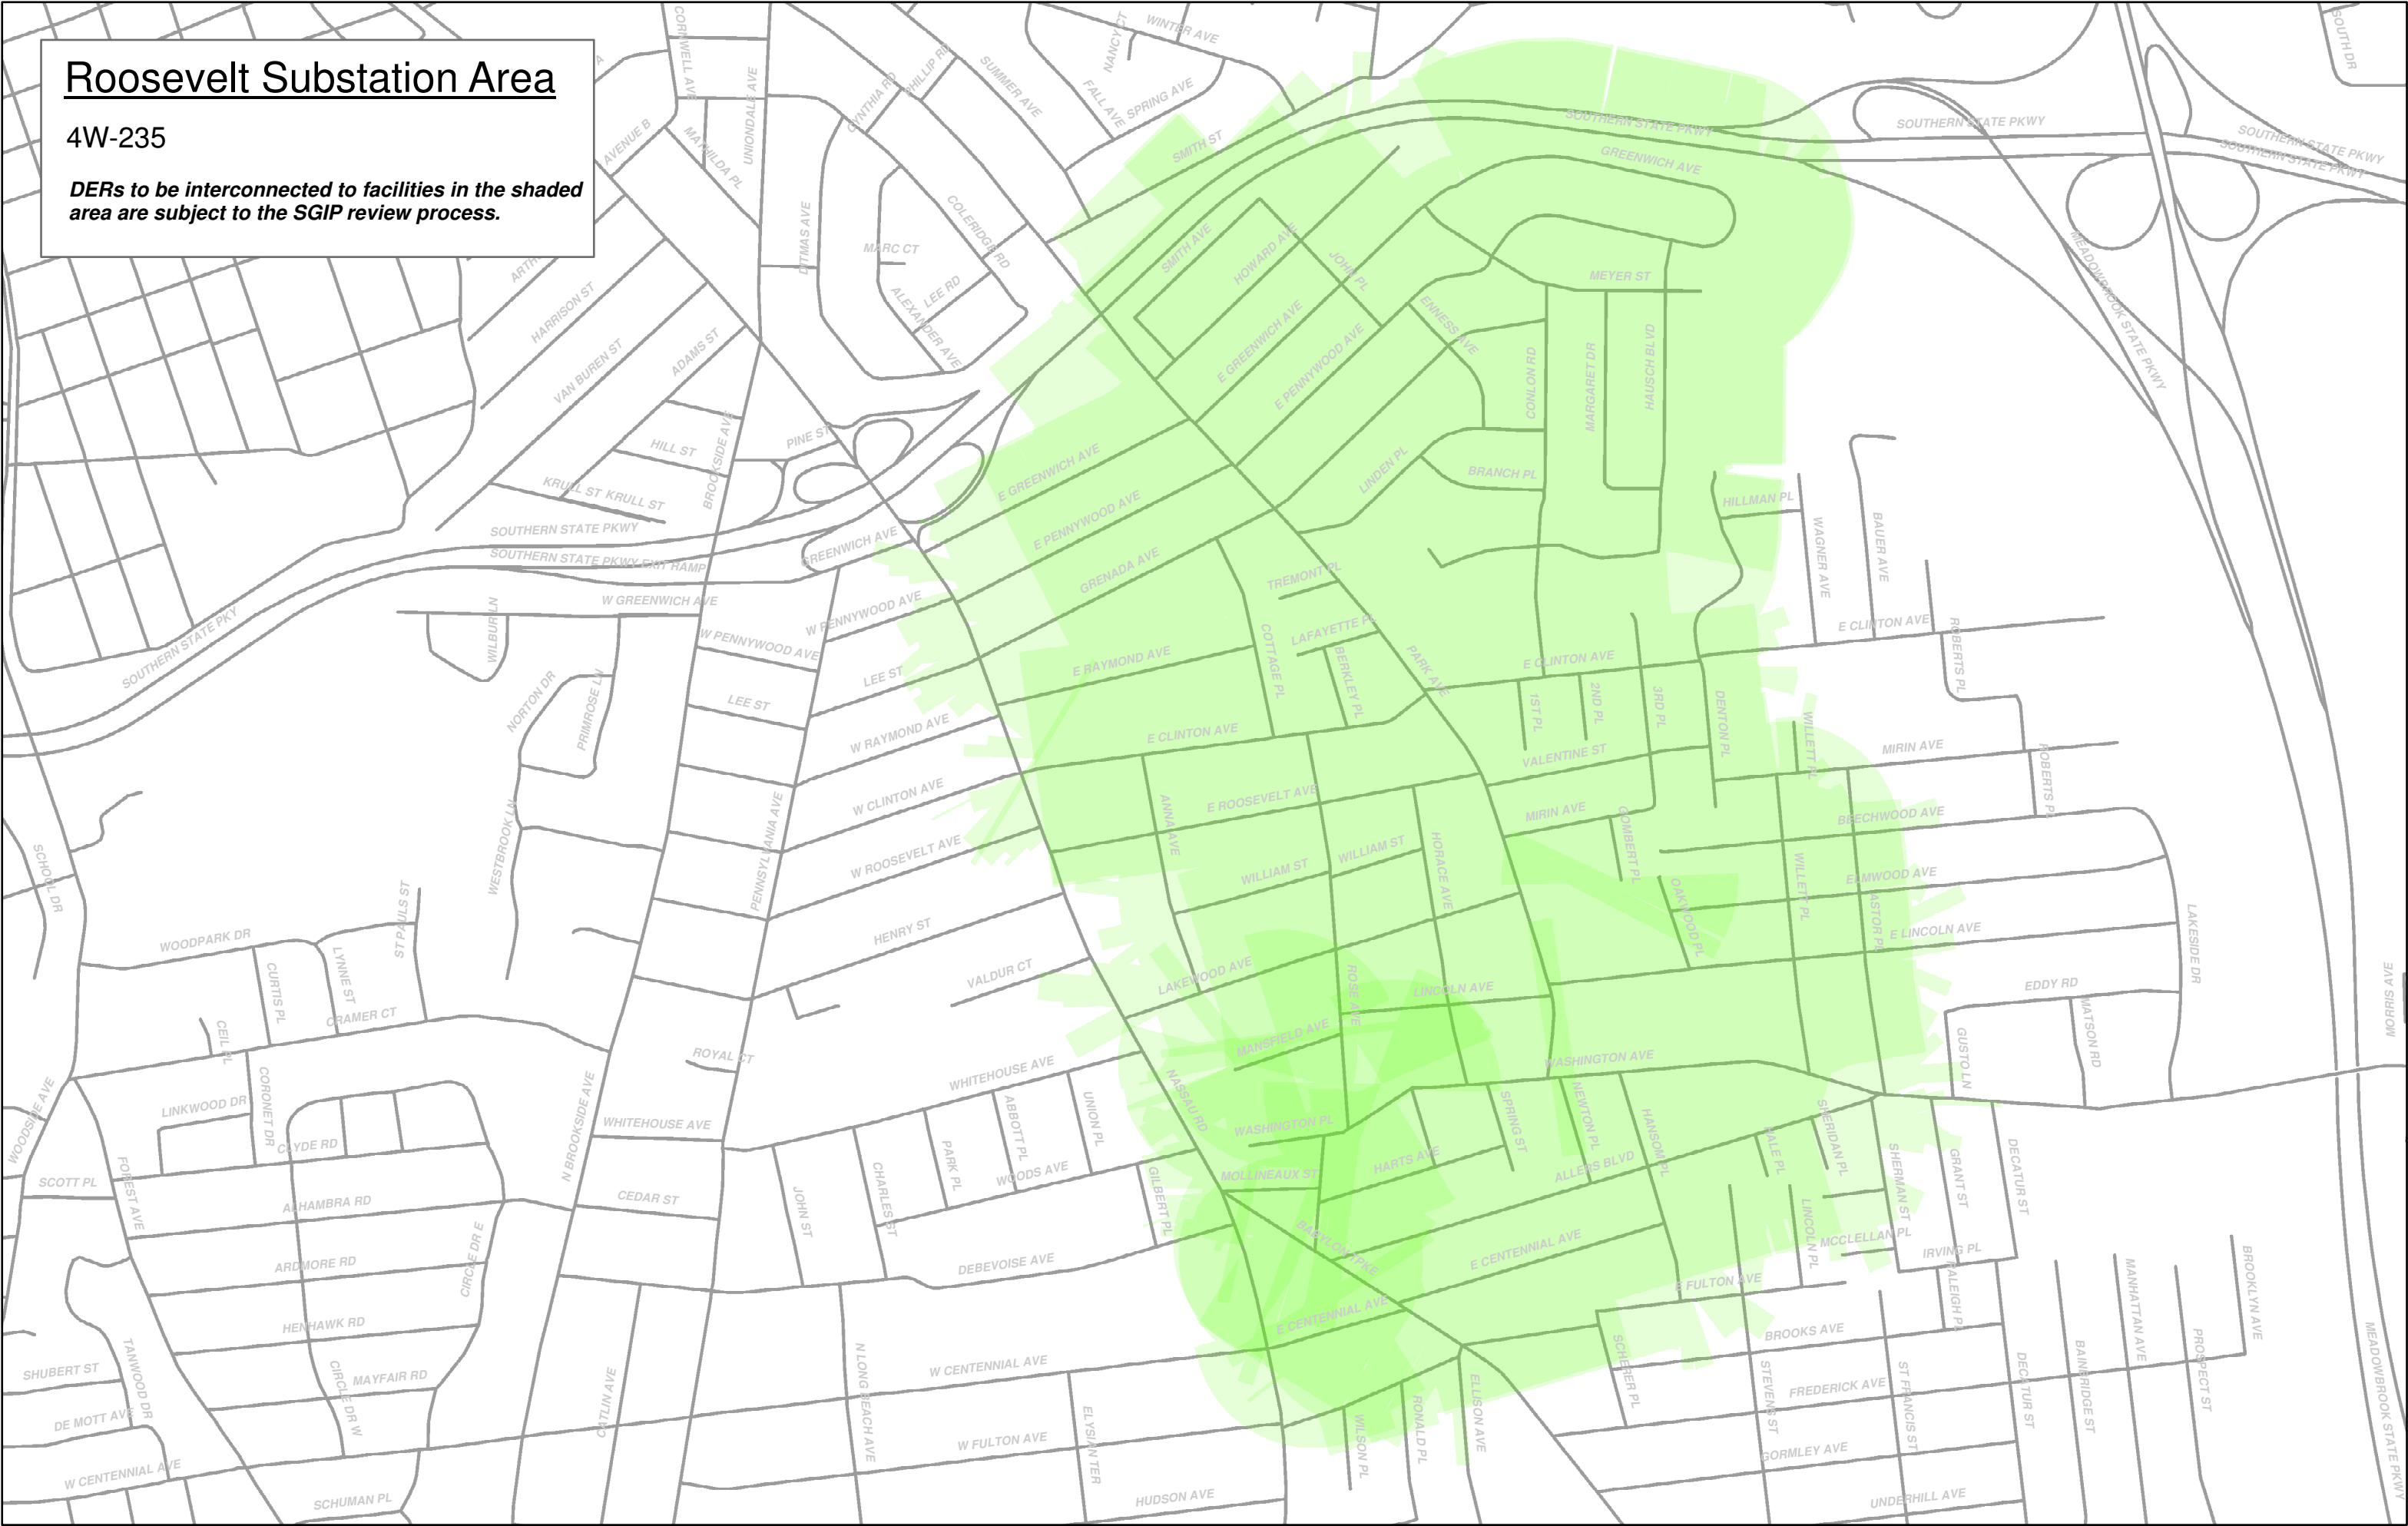

DERs to be interconnected to facilities in the shaded area are subject to the SGIP review process.

Roosevelt Substation Area

4W-235

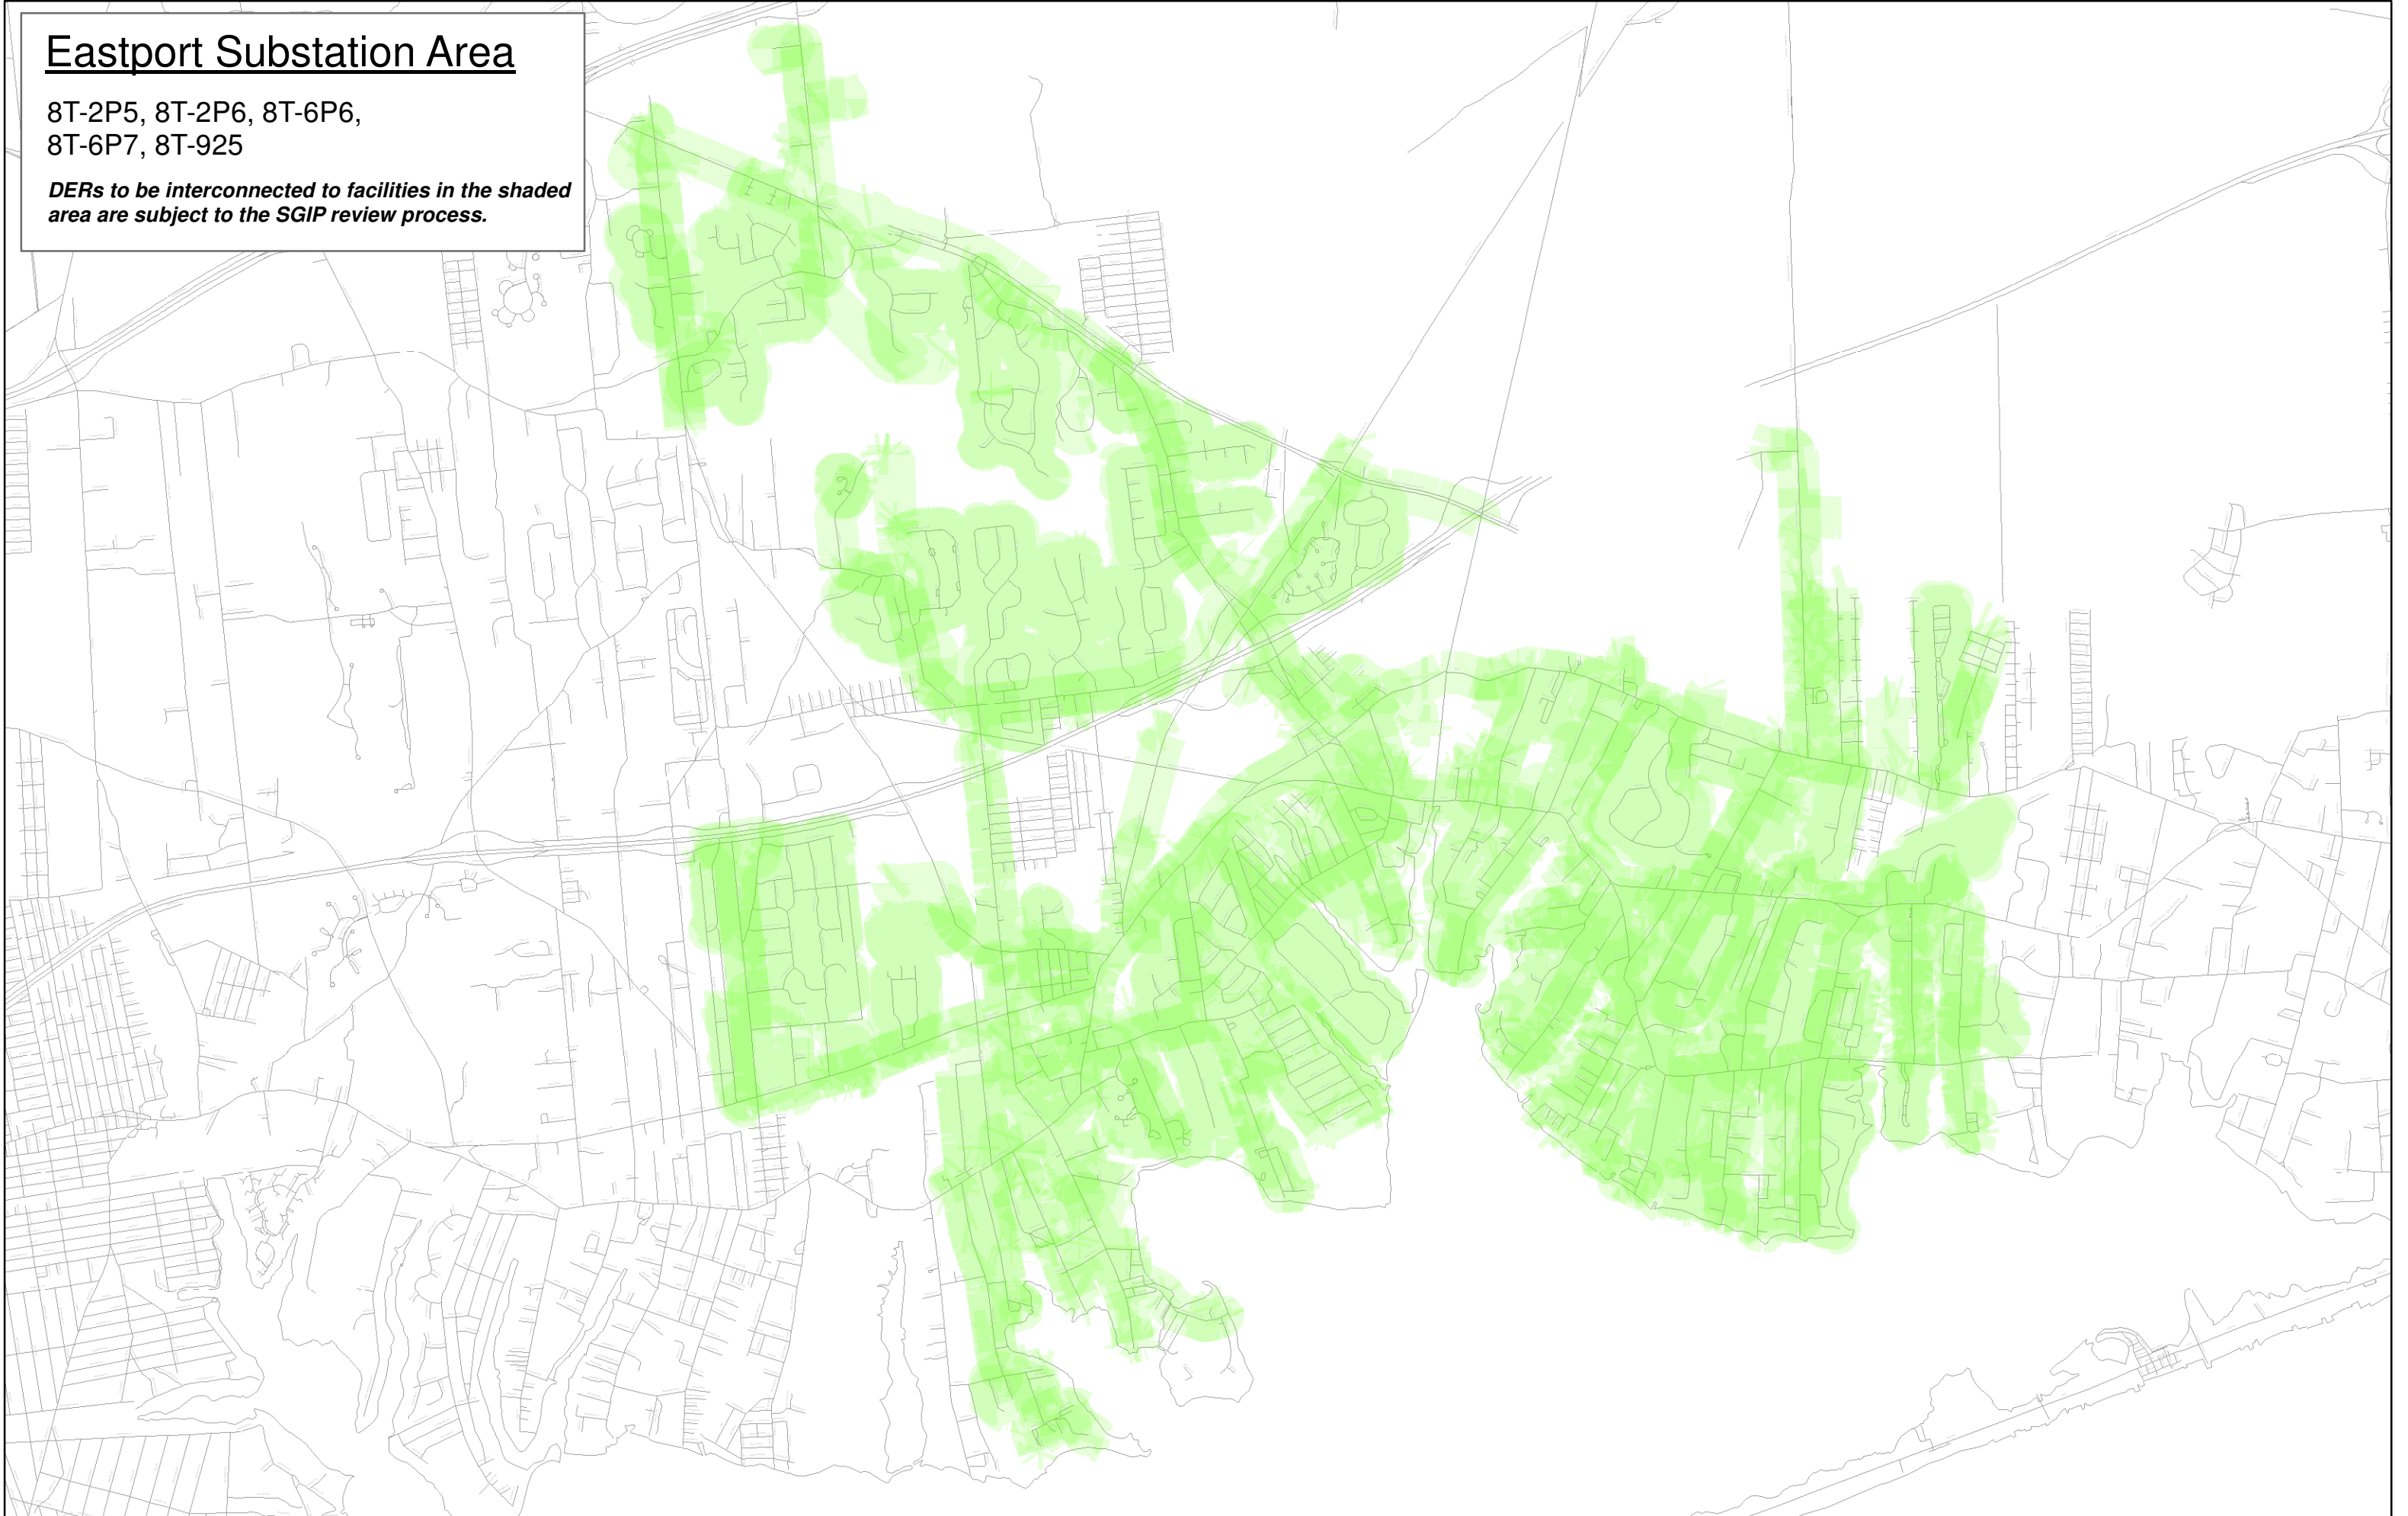

DERs to be interconnected to facilities in the shaded area are subject to the SGIP review process.

Eastport Substation Area

8T-2P5, 8T-2P6, 8T-6P6,
8T-6P7, 8T-925

DERs to be interconnected to facilities in the shaded area are subject to the SGIP review process.

Suffolkaire Substation Area

9AU-4H1, 9AU-4H4, 9AU-796,
9AU-798

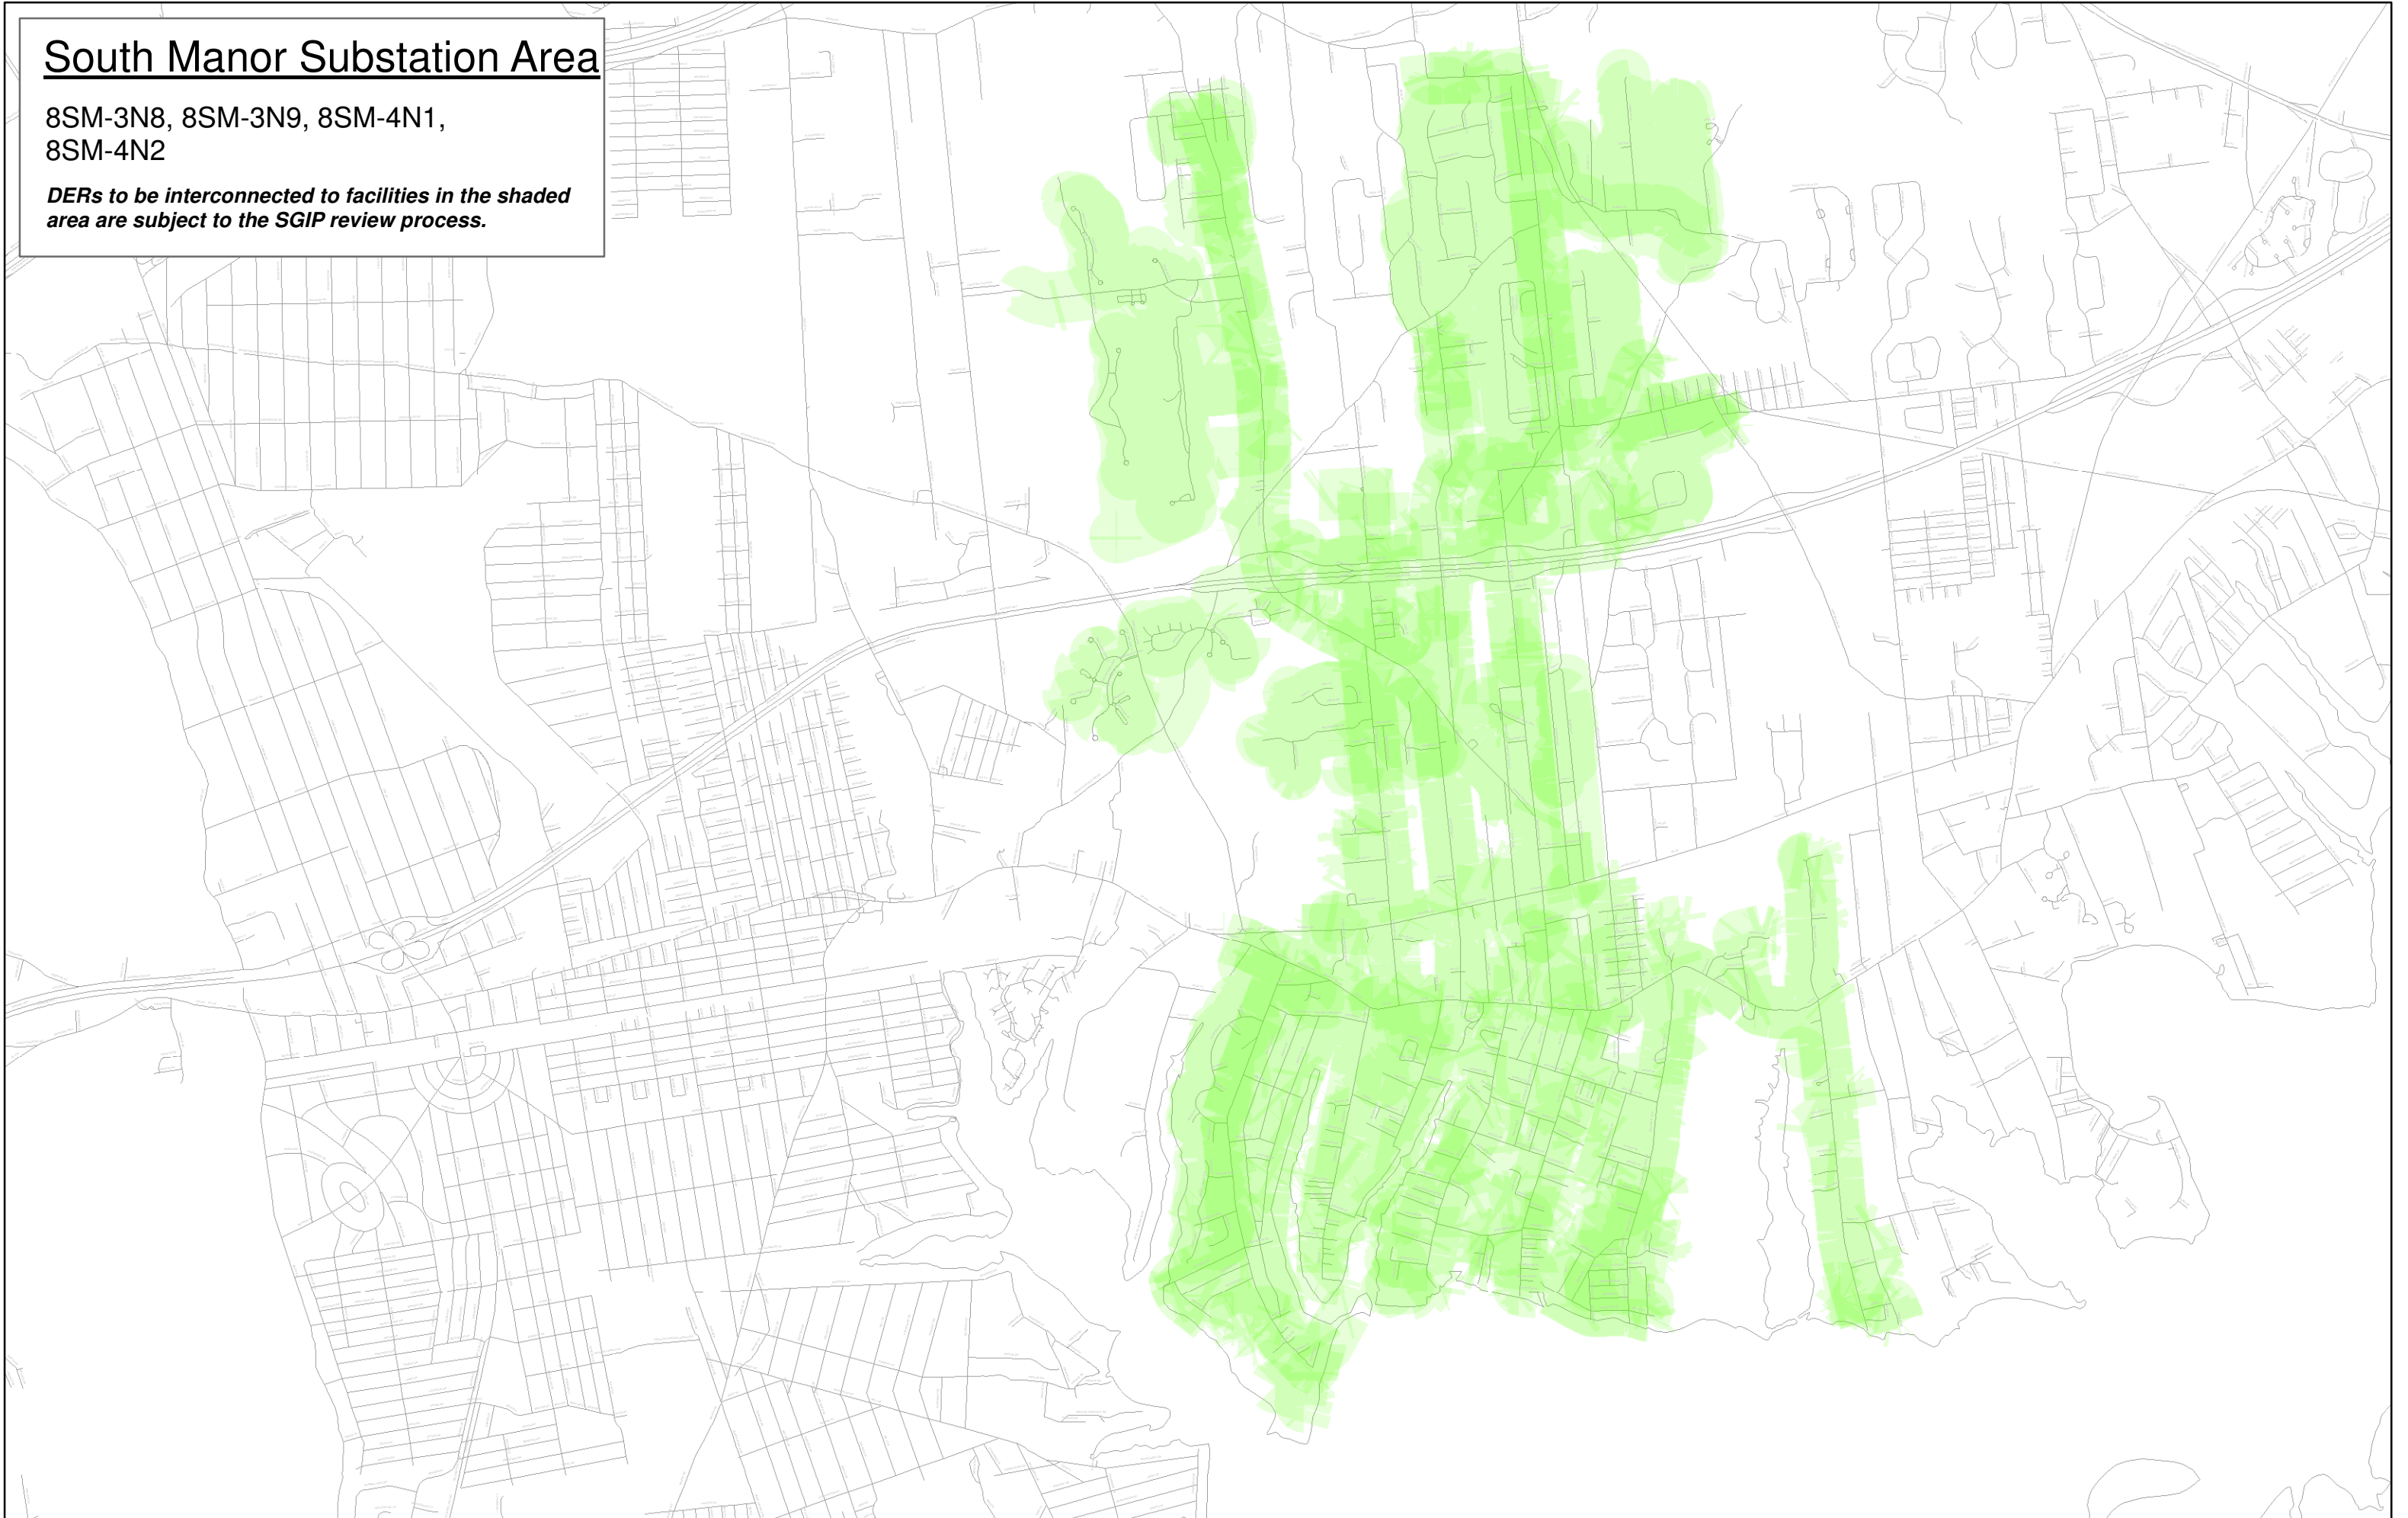

*DERs to be interconnected to facilities in the shaded
area are subject to the SGIP review process.*

South Manor Substation Area

8SM-3N8, 8SM-3N9, 8SM-4N1,
8SM-4N2

DERs to be interconnected to facilities in the shaded area are subject to the SGIP review process.

Quogue Substation Area

9D-643, 9D-693

DERs to be interconnected to facilities in the shaded area are subject to the SGIP review process.

Tiana Substation Area

9J-932

DERs to be interconnected to facilities in the shaded area are subject to the SGIP review process.
