- ❖ \$300 Wellness Reimbursement

What We Need

- Bachelor's Degree or higher in Business, Engineering, Math, Economics, or Science required
- A minimum of 5-7 years of experience designing or managing electrification, energy efficiency, or distributed energy resource customer programs at utilities or industry partners
- Experience analyzing these programs to determine cost-effectiveness, setting performance standards and objectives
- Excellent written and communications skills
- A passion for public service and mission-driven work
- Experience setting and managing within program budgets, preferred

LIPA's Corporate Values

Service: In all our actions, we serve our customers, community and the environment.

Collaboration: We leverage the abilities of our colleagues and stakeholders to benefit our customers.

Excellence: We build on our successes, celebrate our wins, and learn from our mistakes.

What You'll Do At LIPA

The Manager of Clean Energy Customer Programs is responsible for overseeing the development and implementation of clean energy customer programs for distributed energy resources, beneficial electrification, and energy efficiency.

The Manager of Clean Energy Programs will assist LIPA in its commitment to transforming its power grid to meet New York's landmark climate goals and deliver 100% carbon-free electricity by 2040 by overseeing the development and implementation of innovative customer programs that support this clean energy transformation, enable the optimal integration of distributed energy resources into the grid, and advance climate justice by ensuring all customers have access to the benefits of these programs. The Manager will also advise LIPA's policy and regulatory advocacy teams on clean energy and energy efficiency matters, inform LIPA's positions in related proceedings, and support LIPA's participation on New York's Climate Action Council.

Essential Job Functions include:

- Overseeing the development and implementation by the Service Provider of new Utility 2.0 and energy efficiency plans, budgets, and initiatives, including:
 - Ensuring that proposed plans align with and position LIPA to achieve its strategic objectives and clean energy policy goals.
 - Assessing and making recommendations to LIPA executives regarding approval, modification, or rejection of each initiative, including reviewing the service provider's analyses supporting each program or initiative, with the assistance of other LIPA SMEs or consultants.
 - Coordinating LIPA's review of each annual Utility 2.0 filing in collaboration with the NYS DPS.
 - Reviewing public and stakeholder comments and coordinating responses.
 - Monitoring and reporting on implementation and budget status and proactively resolving issues.
- Monitoring and reporting on industry best practices and regulatory developments related to energy efficiency, Utility 2.0, and other clean energy customer programs, and maintaining relationships with related organizations.
- Advising LIPA regulatory and policy advocacy teams as the subject matter expert in energy efficiency and clean energy customer programs. Providing subject matter expertise to LIPA teams working on integrated resource plans and climate change adaptation plans.

Salary Range: \$110,000 - \$140,000

LIPA is an equal opportunity employer.

Applying: Interested parties should submit their resume to Barbara Ann Dillon, Director of Human Resources and Administration, at 2022ManagerofCleanEnergy@lipower.org
