Utility Debt Securitization Authority
(A Component Unit of the Long Island Power Authority)
2023 Approved and 2024 Projected Operating and Capital Budgets

## Utility Debt Securitization Authority

In August 2021, New York's Governor signed a bill into law authorizing the issuance of additional securitized bonds for refinancing and to fund LIPA transmission and distribution system resiliency investments. With these legislative changes the UDSA may issue up to $\$ 8.0$ billion of securitized bonds (inclusive of the bonds already issued).
UDSA (rated triple-A) provides a lower cost of financing than LIPA bonds. As such, in September 2022, UDSA refinanced approximately $\$ 852$ million of LIPA and UDSA bonds achieving net present value debt service savings of $\$ 42$ million. UDSA also funded $\$ 100$ million of 2022 storm hardening investments using LIPA's first "green bond" transaction.

UDSA financings have saved LIPA customers $\$ 534$ million in net present value debt service savings since 2013. A total of $\$ 5.3$ billion of UDSA Restructuring Bonds have been issued resulting in approximately $\$ 2.7$ billion remaining in statutory capacity.

The operations of the UDSA are presented as a proprietary fund following the accrual basis of accounting in order to recognize the flow of economic resources. Revenue which is based on the UDSA's Restructuring Charge is set at an amount sufficient to recover the debt service payments and other cash operating expenses that the UDSA incurs in any given year.

The UDSA is considered a blended component unit of LIPA. The results of operations are consolidated with LIPA for financial reporting purposes.
