

Agenda

Tropical Storm Ophelia

Operations Update

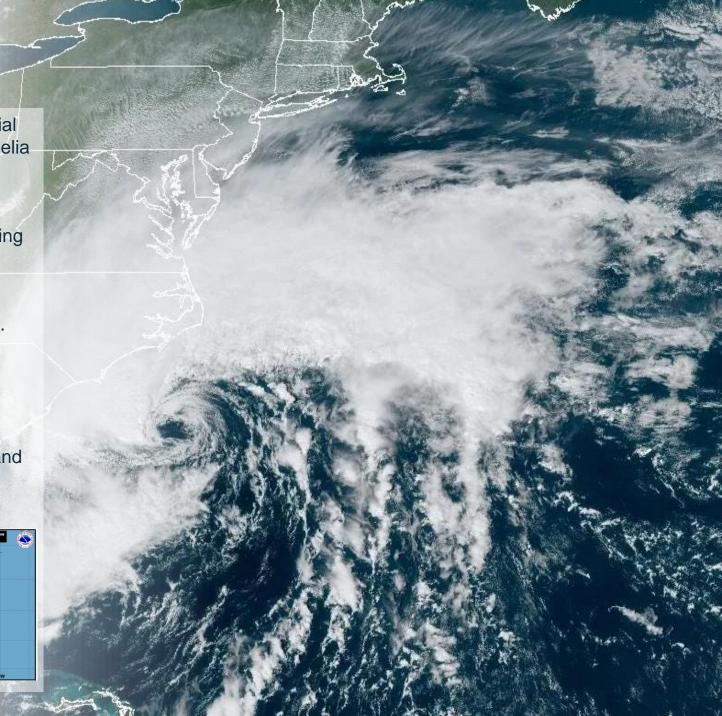

Tropical Storm Ophelia

Overview

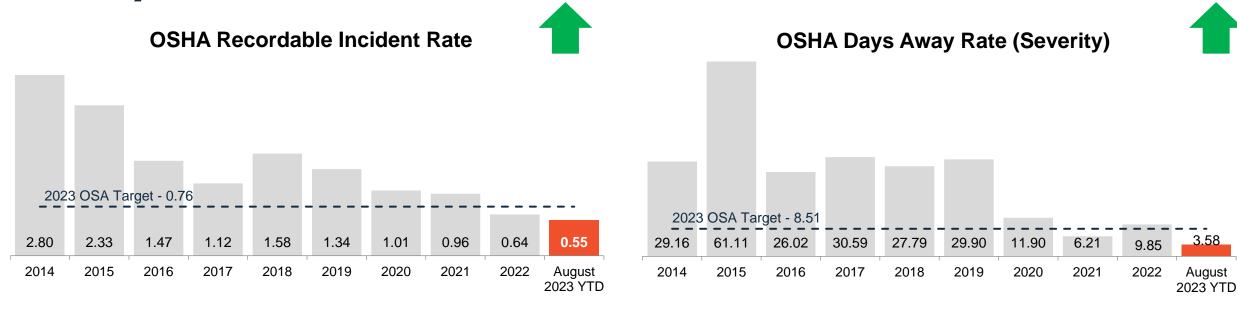

- Beginning September 21, 2023, PSEG LI was tracking potential Tropical Cyclone 16 which developed into Tropical Storm Ophelia on Friday, September 22, 2023.
- Remnants of Tropical Storm Ophelia brought heavy rains and gusty conditions to our service area beginning Saturday morning through Sunday evening resulting in scattered outages.
- Storm was managed primarily with internal resources (16 contractor FTEs were called in from standby in West Division).
- The Preliminary Reliability Numbers for this weekend's storm: CAIDI – 116.5 minutes
- Note: Storm Thresholds were exceeded again on Monday resulting from remnants of Ophelia. Approximately 190 jobs and 7,900 customers will be added to this weekends storm count.

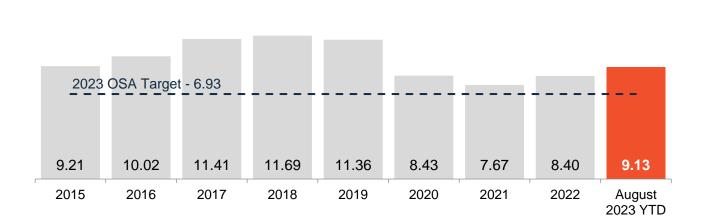

Division	Jobs	Customer
Queens	30	230
Central	104	4,186
Western	98	4,239
Eastern	96	3,440
Total	328	12,095

Electric Reliability

Multiple Customer Outages - Sustained, Momentary and Repeat MCO

Sustained Multiple Customer Outages (S-MCOs) 4 or more - >5 Minutes

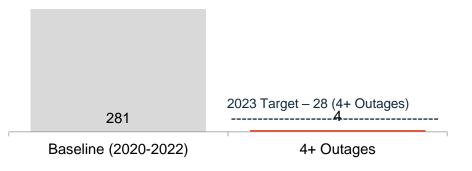

Momentary Multiple Customer Outages (M-MCOs) – 6 or more - <5 minutes

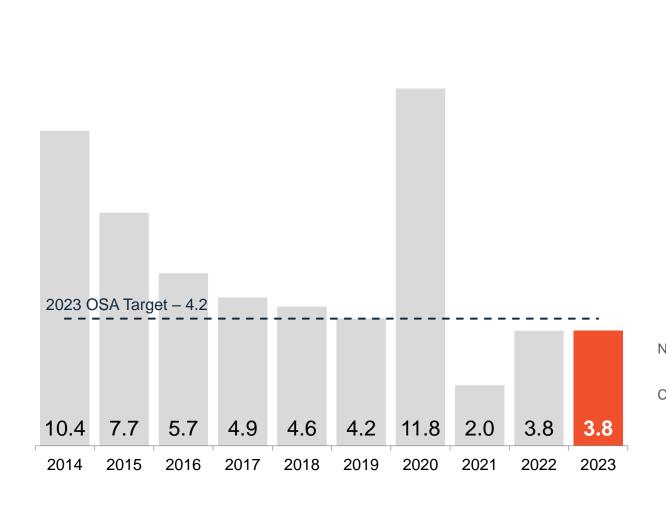

NYS DPS Customer Complaint Rate

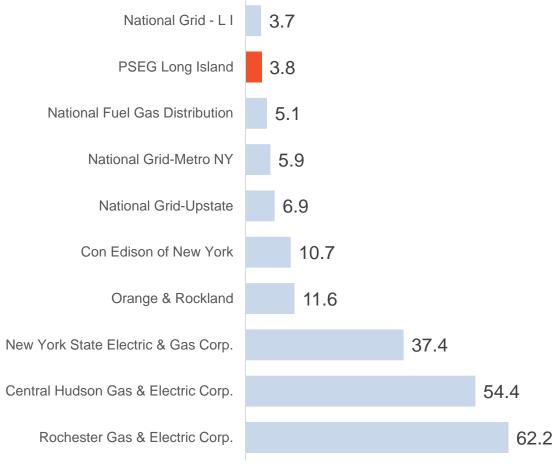

Rolling 12 Month DPS

Complaint Rate per 100,000 Customers

Community and Employee Engagement

Award Winning Team

- PSEG Long Island received the Long Island Business News (LIBN) 2023 Corporate Citizen of the Year (Large Business) Award.
- PSEG Long Island received Chartwell's Energy Marketing and Customer Service (EMACS) Gold Award for Billing and Payment Programs for the development and implementation of its Voluntary Time of Use (VTOU) program.
- At the 2023 Marcum Workplace Challenge, PSEG Long Island earned:
 - 1st place Participation Award for most registered employees and families
 - Beneficiary Fund Challenge Award for raising the most money on top of registration fees – more than \$26,000 total.

Appendix

Time of Day Project Highlights

- Risk to schedule has been documented and communicated throughout the project due to the following:
 - Aggressive desired timeline
 - Complexity of requirements and timeline to finalize the PIP and the functional requirements
 - High priority on quality due to customer facing / billing nature of the work
- → Finalization of key deliverables has taken extended timeframes, causing revisions to the schedule
 - PIP submitted 3/2023; approved 6/2023
 - Requirements submitted 3/2023; revisions are ongoing
- Timeline for quality and testing activities has been impacted and is being extended
- Zero LIPA's intent to conduct IVV activities was communicated in July 2023
 - Initial intent has been to accommodate within the original schedule
 - The schedule has been impacted by these activities
